

GUIDO G. GATTI

Gatti Evaluation, Inc. / www.gattievaluation.com / gggatti@gattievaluation.com

SUMMARY

Principal Investigator on numerous large research evaluation projects for Fortune 500 companies, major academic institutions and medical centers. Seasoned and dynamic professional, with solid experience and in-depth knowledge of education and biomed. Offers broad-based conceptual knowledge in research methods, statistical modeling and interpretation of data analytic results. Demonstrate effectiveness in managing multiple, simultaneous, longitudinal studies, from inception to completion. Superior writing skills, able to prepare proposals, evaluation reports and professional articles. Utilize strong leadership and teamwork skills. Exceptional ability to effectively liaison between all stakeholders.

ACCOMPLISHMENTS

Co-authored two award winning papers, in the fields of thoracic surgery and clinical simulation. Authored numerous evaluation and technical reports. Published in top tier international peer reviewed scientific journals and presented at international academic conferences. Numerous studies cited in local print, national print, online periodicals and institutional websites. Listed in the American Evaluation Association Consultant Database as well as the What Works Clearinghouse Registry of Outcome Evaluators. Multiple studies reviewed by the What Works Clearinghouse and Best Evidence Encyclopedia. Utilized as an expert reviewer for various journals.

QUALIFICATIONS

- Outstanding ability to design research studies, implement design, gather and analyze data and produce detailed reports.
- Adept at developing psychometrically sound survey instruments.
- Ability to adapt to and effectively communicate with people and institutions at all levels.
- Exceptional consultative skills regarding research design, data collection, management and analysis, statistical modeling, forecasting, decision theory and survey techniques.
- Key research expertise areas include: education (print and digital) and biomed.
- FERPA and HIPPA certified

EXPERIENCE

Principal Investigator
September 2002 - Present
Gatti Evaluation, Inc.

Generate independent, high quality research to longitudinally evaluate the effectiveness of 8 widely published education programs for Pearson Education over the course of 14 years. Subject matter for studies include English Language Arts, Mathematics, History, Social Sciences and Performing Arts. Perform studies on fully digital curricula, adaptive computer-aided instruction and incorporation of 1:1 tablet Instruction. Responsible for the management and integrity of all research design, recruitment of schools, conducting research, program implementation fidelity, collecting and analyzing data and delivery of evaluation reports. Ensure successful, collaborative relationships between multiple research sites and Pearson Education by serving as liaison between all stakeholders. Oversee a team of researchers to ensure ethical conduct and effective practices in all aspects of the research process.

Detailed list of studies provided upon request.

EDUCATION

MA in Research Methodology with Concentration in statistics, University of Pittsburgh, 1997
BS Psychology with Minor in Biology, University of Pittsburgh, 1995
