

BENEFITS

Increase confidence as you train with onsite wastewater professionals and ...

- Gain continuing education for license renewal credits
- Learn New 75-A DOH regulatory updates
- Learn alternative design solutions for difficult sites
- Submit better septic design solutions
- Meet manufacturers' representatives
- Gain a competitive advantage
- Consult with Eric Murdock, P.E.
- Receive certificate of completion for license renewal credits

Continuing Education Credits

- ✓ Professional Engineers/ Architects (PIE)
- ✓ Code Enforcement (NYSDOS)
- ✓ Wastewater Operators (NYSDEC)

The Skaneateles National Community Decentralized Wastewater Demonstration Project was initiated with funding assistance from USEPA to introduce alternative onsite wastewater treatment technologies in the Skaneateles Lake Watershed. The Skaneateles watershed offers many challenging site conditions. Advanced technologies help protect this high quality water resource that is used as an unfiltered drinking water supply for the City of Syracuse. By demonstrating design, installation, operation and maintenance, the project has expedited the introduction of alternative systems to the region. This training serves to sustain valuable natural resources.

The New York Onsite Wastewater Treatment Training Network, Inc. (OTN) represents various industry and agency professionals, including specialists from NYSDEC, NYSDOH, and NYSDOS. The OTN provides hands-on training throughout NYS to those involved with onsite systems.

This event is being coordinated by OTN in conjunction with RCAP Solutions.

**Professional Engineers
Architects
Code Enforcement Officers
Contractors
Wastewater Operators**

**Earn up to 15 PDHs
Professional Development
Hours**

September 25 - 26, 2013

**Alternative Onsite
Wastewater Treatment
Technology Training
Project**

Hosted by:
**Eric Murdock, P.E. &
USEPA**

Training Location:
Sherwood Inn
And the
Skaneateles Lake
Demonstration Project

Date: September 25-26, 2013

Time: 7:30am Registration & Breakfast
8:00am to 5:00pm

Location: Sherwood Inn
26 West Genesee St.
Skaneateles, NY 13152
1-800-374-3796

Cost: \$299

Day 1 includes breakfast and lunch & classroom training and optional vendor-sponsored dinner cruise

Day 2 includes breakfast & lunch with manufacturers' representatives & Lake Maintenance Demonstrations

Invited Manufacturers:

- American Manufacturing Drip Irrigation
- Anua - US Peat Filter
- Clarus Environmental - Fusion Treatment
- Infiltrator
- Knight Treatment Systems White Knight
- Orenco Systems, Inc. AdvanTex Textile Filter
- Premier Tech Environment Ecoflo Peat Filter

Skaneateles Lake
Demonstration Project
9th Annual Tour
with Eric Murdock, P.E.

Alternative Onsite Wastewater
Treatment Training

Earn up to 15 Continuing Ed. Credits:

Day 1 -Solutions for difficult sites:

- ❖ Design, construction, & operation
- ❖ How to conduct annual maintenance

Day 2 – Onsite systems tour:

- ❖ System Maintenance Tour of Alternative Technologies
- ❖ Meet various technical manufacturers' reps

Training endorsed for best practices by:
Cayuga, Cortland, Oneida, Onondaga,
Oswego, & Tompkins County Departments
of Health.
