

Hi Friends,

My name is Abby and I am a coach at Jump! South. Before starting at Jump! gymnastics, I coached both competitive and recreational gymnastics for about 6 years. I also was a competitive gymnast myself. I started competing when I was 7 years old and made it all the way to level 9 at the age of 16! I also have taught dance and performed in many recitals and shows. I truly love the sport of gymnastics and the art of dance. I cannot wait to teach my

students all of the things I have learned throughout my experiences. As a coach I love to encourage my students to have fun, learn new things, and be confident in themselves. I am excited to be a coach at Jump! and I cannot wait to share my passion for gymnastics with my students!

Outside of gymnastics and dance I completed my Bachelor of Science in Athletic Training at Texas State University in May 2020. Health care and exercise have always been a passion of mine and it is great to have a degree that incorporates both!

I look forward to meeting everyone!

-Abby Edward
