Topic: Canine Soldiers

Canine Soldiers explores the intimate bond between Military Working Dogs and their handlers-combat soldiers who make life-and-death decisions based on the instincts and behavior of the dogs who lead their patrols. In wars where the rules of engagement have shifted from traditional combat to the unforeseen and the invisible, these highly trained dogs are saving soldiers' lives and giving them comfort, hope and protection. This movie is being presented courtesy of documentary filmmaker Professor Nancy Schiesari of the University of Texas, Austin.

Branch Member Technician Recognition & Presentation: In honor of National Technician Week, 1/28/18-2/3/18, and this being the year's first meeting in WV, the TRBAALAS Board of Directors, supported by many of our institutional members, will present a gift bag to each technician branch member present at the meeting.
