Party Instructions:

1. We will need the total number of party guests (adults and children) whether they are going to swim or not. We will need to know exactly how many people in your party are members of the Swim Club. Every guest of the pool party will need to check in at the front gate, get a wristband and sign in to the party log.
2. The maximum number of guests for each party is 30 guests (unless the pool contract indicates a larger number). A guest is anyone entering the pool area and staying during the party, regardless if they swim or not.
3. Please arrive at the pool 15 minutes before the start of your party to receive further instructions from the staff.
4. When you arrive, we will give you 30 wristbands for your guests who are non-members of the Club.
5. Each guest who is not a club member will need a wristband to enter the pool area.
6. Guests who are pool members may stay and continue to swim after the party is over.
7. Guests who are not pool members may purchase a guest pass (\$5) to stay and swim for the remainder of the day.
