

PHOTO RELEASE FORM

Children are adorable and always changing and therefore twice a year we have local photographers come into the center and take class and individual pictures. These photos are for sale by the photographers. Their purchase is always optional.

The staff and administration of Quala Care take pictures at many of our events and to capture the cute happenings of the classroom or on field trips. These photos are displayed throughout the center and are also used to make “presents” for the parents. Occasionally, we will use photos of students involved in child care activities for advertising or promotional purposes (newsletters, brochures, website, etc.)

Please indicate, by your signature below, your permission for your child to be photographed while participating in center activities and for Quala Care Child Center, Inc. to use and publish your child’s photo in print and/or electronically for the above stated purposes.
