I first met Bob Rooney when I was re-assigned to the 379<sup>th</sup> Engineer Company (CSE) of Buzzards Bay, MA. in September of 1998.

It was clear from the start Bob was a professional with a deep knowledge of his equipment. Bob was always level-headed. His approach to problems was thoroughly thought out and well grounded. I often referred to him as being "even".

Bob's counsel was often sought out by subordinates, peers and senior personnel. He is a great loss to all who knew him.

I call myself fortunate for having known SFC Robert E Rooney.

Sincerely
