Workplace / Physical Requirements			

Company

For an established company 30 minutes north of the GTA, in Aurora, that has been delivering innovative core banking software to international financial institutions for over 35 years.

Job Duties

- Develop core components of a multi-tiered financial web application using Java, Spring framework, SQL, JavaScript, Angular and HTML
- Work closely with the System Architects and Business Analysts and divide your time between front-end and back-end development
- Improve application architecture and make it test friendly
- Develop new modules and enhancements
- Maintain and improve current applications
- Create internal tools to automate tedious manual tasks
- Upgrade applications to the latest technologies
- Provide team members with training and assistance as required
- Create documentation for new approaches and architectural decisions
- Ensure development standards are maintained
- Test, troubleshoot and resolve bugs in code
- Assist with data conversion and data mapping exercises
- Challenge the status quo by designing or inventing a better way
- Play ping-pong with team members on a regular basis

Requirements

- Post secondary degree in computer science or programming
- 3 years' experience with the development of multi-tier applications
- 3 years' experience in Java web development
- Experience with Angular, RESTful APIs and Spring
- Experience with MyBatis, PostgreSQL
- Experience with Tomcat, Linux, shell scripts, programmatic creation of PDF and Excel documents

- Ability to work unsupervised
- Strong understanding of database management principles
- Effective oral and written communication skills
- Experience in the following areas would be an asset:
 - Developing financial applications or lending systems
 - SQL development and tuning databases such as PostgreSQL
 - Development experience with forms integration and e-signatures
 - Developing data extraction and transformation components
 - Instigating innovative design changes with new technologies and approaches
 - Third party integrations and protocols (ISO8583, ISO 20022)

How to apply

To apply please submit resume to HRQR@rnc.ca for pre-screening and consideration.

Include a note indicating why you are a good fit for this position.
