

Better Living through Channeling! Learn how to channel Ascended Masters, Light Beings, and your Higher Self with
Kay Dragon

This course will answer your questions about channeling and how it can support you in your daily life. You don't have to be psychic, only the ability to focus and the desire to make your life and the lives of others better. This is a class that will teach you practical channeling.

I will give you meditations and exercises to receive your messages of wisdom, healing, fulfilling your purpose, and manifesting the best version of yourself. We will explore the basics of channeling, what to expect, how it feels and I will share my own experiences to help you grow in your connection with the Divine.
