

Working Group for Park Use Consultations

At the David Bartlett Park Dog Walkers' Association **Annual General Meeting** last October, a significant amount of time was dedicated to three key issues:

- Change of park designation from Off Leash to a shared space (mixed use designation)
- Parking Lot expansion
- On leash corridor with fencing next to residential properties at south end of the Park

While the discussion was lively, no resolution was achieved that night; however, Councillor Moffatt indicated he would undertake public consultations with all of the communities impacted by these proposed changes.

The shared use issue took center stage at the Manotick Town Hall Meeting **in** November, where Mr. Moffatt indicated his intention to form a Working Group. As of February 2017, it is understood that Mr. Moffatt has identified the community organizations that will participate in the Working Group, and the David Bartlett Park Dog Walkers' Association will be represented by Thom Kearney, President.

New information and/or updates will published here when available.
