

AVION

MANN'S INCORPORATED
BARRE PAXTON RD., RT. 122
RUTLAND, MASS. 01543

Outside, The New Avion is bright, anodized aluminum with sleek aerodynamic styling. For both beauty and efficiency.

Inside, The New Avion offers you more active living space than any trailer its size. Including standard features (not options) that set it apart from every trailer on the road.

- Avion Cabinetry. It's real wood throughout. With mortise and tenon construction you find only in the finest furniture.
- Avion gives you unparalleled storage space. For example, a 28' Avion has 174.7 cubic feet of storage space. A comparable Airstream® 28' model offers only 114.2 cubic feet. Avion actually has 53% more space!
- Avion's Automatic Water Heater Ignition System. It assures you hot water whenever you want.
- Avion's Dual Holding Tank Water System. This trailering first gives you 70-gallon dual capacity in drain and sewage tanks. Plus up to 65 gallons of fresh water.
- Avion's Thermo-X Insulating Foam is sprayed in a tough

layer throughout the Avion shell. This superior insulation won't slip or hold water. It's the best there is.

- Copper Plumbing is used throughout your Avion. It's flared with brass fittings for years of trouble-free service.
 - Wide, Metal Furnace Ducts assure you efficient, quiet heating just as in fine homes.
 - Exclusive Adjust-A-Ride™ All Wheel Independent Suspension keeps the "G" force created by irregular surfaces and road shocks at wheel level, away from the trailer and the tow vehicle. The result: towing ease you've never experienced before.
 - Plus, so much more. Including Sealy Posturepedic® Mattresses. Delta Faucets. Positive-hold door latches. A full selection of the finest decorator fabrics. And, Avion is protected by Fleetwood's full one-year Ownercare Warranty.
- These are just a few of the features that make your New Avion such an outstanding investment. We hope you'll look closely at all of them!

Choose the living space that's just right for you...

In all, Avion offers dozens of choices.

And each Avion floor plan is a very livable plan, each carefully thought out and based on years of on-the-road experience.

We've considered all the points important to you: Livability, comfort, privacy, convenience, styling and more.

Choose from rear or center bathrooms. Twin or double beds. There are plans for every lifestyle, whether you're the entertaining type or the kind who likes quiet privacy.

You want the trailer floor plan and size that's just right for you. So we've created the dozens of designs you see over on the left. Just take your pick.

Whatever your choice, it's bound to mean livability your way.
