

House-to-Home

In this life-saving program, we assemble and deliver goods and furnishings to families who are making fresh starts in new residences. These families are referred to us by nonprofits and other organizations who are helping them in other capacities. Once introduced to us, we learn the family's specific needs and get to work, fulfilling a list of items that transform their new living quarters into warm and well-stocked homes. Emerging from shelters or crisis centers, the recipients have very little, just a bit of clothing, so the necessities we provide help them in an important transition in their lives.
