

Minutes

Community Development Committee

For Meeting of April 15, 2015
In BOS Room

Discussions to define the Town's needs for recreation, community center and seniors were continued.

Ray Turner, Carmen and Herb Moulton, representing the Community Center attended and presented their plans for an addition to the Community Center.

Gary Colello, the Town's rec director attended and set forth his needs and problems.

Information about the Memorial School was presented and the consensus was that it should be ignored as a site to meet Town needs. It was anticipated that SAD 61 would not transfer ownership to the Town in the near future.

Funding was discussed. To maximize it several forms of future property ownership were discussed to maximize governmental, grant, and private funding.

The possibility of a professional assessment of Town needs was discussed. Having been a professional in this field Phyllis volunteered to contact schools to get students to conduct the study.

There was a discussion of available facilities and for what they were and could be used.
