BENEFITS

- Provides sustained energy without a “crash”*
- Supports metabolism at the cellular level*
- Helps boost energy for workouts to maximize results*
- Supports the immune system with concentrated antioxidants*

GIVE YOUR BODY A NATURAL BOOST

Instead of containing steroids, stimulants, or chemicals to rev up your metabolism, MetaBooster® is powered by all-natural ingredients, including essential amino acids. An anti-aging ally, the ultra-concentrated antioxidants in MetaBooster® help the body fight free radicals, which can damage cells as you age.* MetaBooster® also supports the transformation of nutrients into energy.* Take MetaBooster® anytime you need a boost of energy, day or night.*

PHILOSOPHY OF REGENERATION®

Rather than developing products based on marketing hype or fad ingredients, Sunrider bases its products on the Philosophy of Regeneration®—which advocates nourishing and cleansing the five systems of the body to promote balance and optimal health. MetaBooster’s proprietary formula contains ultra-concentrated antioxidants and nutrients to support a healthy metabolism and energy.*

INGREDIENT HIGHLIGHTS

L-ARGININE

In the body, the amino acid arginine changes into nitric oxide (NO), a powerful neurotransmitter that helps blood vessels relax and also supports circulation.* Arginine may also help support healthy blood flow in the arteries of the heart.*

ACETYL-L-CARNITINE

This modified amino acid supports cellular energy production by assisting in the transport of fat for conversion into ATP (chemical energy for the cell).* It’s important for heart and brain function, muscle movement, and many other body processes.

ALPHA-LIPOIC ACID

This antioxidant is vital to cellular energy production, and helps to neutralize the damage caused by free radicals.* It also breaks down carbohydrates to supply energy.*

FAQS

Q: Who can benefit from taking MetaBooster®?

A: This all-natural supplement is ideal for anyone who wants more energy and a faster, more efficient metabolism.* Made with owner expertise, the fast-acting formula not only acts as a metabolism “booster” but also supplies powerful, easily absorbable antioxidants to fight free radicals, help the body dissolve toxic substances, and support the immune system.*

Q: Why are the highly concentrated antioxidants in MetaBooster® important?

A: Dr. Tei-Fu Chen: “Our bodies are like automobiles. We ‘burn’ food to create energy and emit ‘pollution’ as a by-product. In a car, the pollution goes out of the exhaust. In our bodies, some of the pollution is excreted, but some of the pollution remains in the form of free radicals, which attack healthy cells to stabilize themselves, causing premature aging, cellular damage, and disease. Antioxidants help stabilize free radicals and prevent cellular damage.”

RECOMMENDATION

Two capsules at mealtimes, as desired.
