UTILITIES  
COORDINATING COMMITTEE

Tallahassee, Florida  
Holiday Inn  
May 4, 1979

The May Meeting was called to order by Chairman Paul Mundy at 9:00 AM, who made some brief opening statements. Invocation by Carlton Gray and allegiance to the flag were given. Attendance list (attached) was sent around and self-introductions were made. Minutes of the previous meeting in Ft. Myers on February 2nd were read and approved. A show of hands for those remaining for lunch was requested. Mr. Mundy then recognized Mr. Wallace Albritton of Central Telephone Company and thanked him for hosting this meeting.

Mr. Mundy announced that a different procedure would be followed in that New Business would take precedence over Old Business.

New Business

Mr. Cris Andersen's letter of resignation as Secretary to the Committee as of the August, 1979 Meeting, was read and Mr. Mundy expressed regret that they accept this resignation, and said that his participation and dedication was appreciated by all the membership. Mr. Mundy, in accordance with the by-laws, appointed Horace Erwin as Secretary of the August Meeting. Chuck Hanle of Southern Bell was appointed as Vice-Chairman of the Committee. The Nominating Committee will make a report at the August Meeting, announced Mr. Mundy, regarding the new officers for next year which becomes effective at the November, 1979 Meeting.

The August 2nd Meeting will be held in Daytona at the Indigo Inn, and it will be held jointly with the American Right-of-Way Association, starting on a Thursday morning at 9:00 AM instead of the usual Friday.

Chuck Hanle explained that they were having difficulty in application to the Department of Environmental Regulation (DER) and Department of Natural Resources (DNR) for easements crossing waterways (specifically, a submarine permit from DNR). After a discussion it was decided that Chuck Hanle and Paul Mundy would get together and compose a letter from the Committee to the DNR to expedite this matter.

Old Business

Status Report by Paul Mundy on PPM 30-4 and 30-4.1

He related that while in D.C. representatives of the A.R.W.A. met with the Federal Highway Administration to see what type of guidelines were being prepared. It is Jim Kirk's intent to trim down the PPM, and more information will be forthcoming before the October 1st deadline.

Ed Williams - Chairman, "Traffic Control" Subcommittee

Mr. Williams said that March 19th they had to start using a new procedure from DOT on Uniform Traffic Control Devices and asked if anyone had been stopped. He related that they are still waiting to get a formal report from the State that they are working on the 2nd manual that will affect the city and county streets and roads. He requested that if anyone has a project whereby they are stopped to either let him or their company's representative know about it.

Chuck Hanle - Chairman "Standing Committee" (No report at this time)Chuck Hanle - Chairman, "Pedestrian Guard" Subcommittee

Chuck related that there hasn't been any action coming back from the Public Service Commission to him. He asked Carlton Gray to give a report. Mr. Gray said that he had been doing some field work, checking on the design and installation of pedestrian guards. The biggest difficulty they are finding is in maintenance of the guard and the way it is installed on the pipes or equipment. The guard itself is of no value unless it is installed and maintained properly. Work must be done on the guidelines not only on design but on installation and maintenance before it is acceptable. Gas companies have written in saying they are against having a standard. Mr. Gray requested that if anyone has any suggestions or comments to please let him know before they come up with a concept of design.

Walter Anderson - Chairman, "Jacking and Boring" Subcommittee

Mr. Anderson reported that the Jacking and Boring Subcommittee met May 3rd with six members present and reviewed the present DOT draft. The DOT had adjusted seven of the nine specific items the subject Subcommittee had recommended, and had eliminated some of the "how-to instructions." He explained that the guide in its present form is little different from the one of a year ago, but it is much improved.

Coffee Break-----

Ken Brown - Chairman, "Accommodation Guide" Subcommittee

Ken Brown handed out copies of the 3rd draft of the Accommodation Guide and important correspondence received since the last Committee Meeting, which he reviewed. Ken thoroughly outlined the Accommodation Guide and discussion from the floor ensued. Various points on permitting were discussed. A straw vote was taken to leave permitting as it is outlined (vote was 17 to 3 in favor). Carter Holley had requested Paul Mundy to ask the membership what they thought of the new cover for the Utility Accommodation Guide. After a brief discussion a motion was made by Steve Richbourg to adopt the new cover. It was seconded by Scott Boggs and was approved unanimously. Paul Mundy announced that there was a very tight schedule that needed to be adhered to and that any comments from those present should be passed along to Ken Brown no later than Friday, May 11th. Steve Richbourg asked about the procedures for grounding fences along the Interstate, which was commented on by Ernest Salley and Ken Brown. A brief discussion followed.

Mr. Mundy reminded everyone that the August meeting would be at Daytona on a Thursday instead of a Friday.

There being no further business, meeting adjourned.

Respectfully submitted,

Cris D. Andersen  
Secretary
