OEM GRADE TECHNOLOGY
Engineered Specific For Tough Applications

OVERVIEW : With over 150 years of expertise in the aftermarket emissions control industry, US Convertors ("USC") is dedicated to delivering premium quality catalytic converters, exhaust components, and diesel emissions control products. Our focus is on providing exceptional product support services to enhance the experience for our partner distributors and end users. Our industry experience and innovative technology, makes us a GO-TO solution provider for the toughest applications. Our extraordinary culture is committed to delivering "FIRST TIME RIGHT" products through a unique and efficient new product release process.

PRODUCTS : USC offers top 700 high volume Direct fit Catalytic converter SKU's and vast selection of the most popular universal converter configurations with 7", 10", 13", 15 and 16" OAL lengths. USC is in process of launching DPF products line and CARS certified converters.

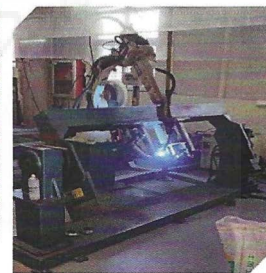

KEY FEATURES

SUPERIOR PERFORMANCE :

- OEM grade technology with heavy loading
- Engineered specifically for demanding tough applications.
- Meet or Exceed OEM Construction Quality Standards.
- Employs Automated Robotic Technology for Uniform Wash Coating.
- Unique proprietary application specific catalyst technology and matrix.
- Robotic welding to prevent leaks and improve product performance.

APPLICATION ENGINEERED FOR QUALITY :

- Developed utilizing OE product for guaranteed fit
- Exact fit with NO CUTTING & WELDING REQUIRED.
- Manufactured in a best-in-class TS certified facility.
- 100% inspected for leaks and ment using frames.
- Includes complete installation kit.
- Robust ACES/PIES application data.

EASE OF DOING BUSINESS

- Unique and Efficient new product release process.
 - Shipped within 48 Hours.
- Experienced product support & customer education.
Class leading 5 year/ 50,000 mile worry free warranty.
