

Advanced Hearing Aid Centers of CNY, Inc.

“We Care About What You Hear!”

Introducing Stride™ from Unitron

Up to 25% smaller and performance that will really ‘wow’ you!

Imagine being able to design a hearing aid with everything you want. It would be so small, it’s undetectable to others. Yet it would sound natural and perform exceptionally well in all types of situations. You’ve just imagined the new Stride custom hearing instruments from Unitron!

We’re convinced our patients will love how Unitron has redefined the art and science of amplification:

- Up to 25% smaller than previous models — virtually invisible in the ear
- A comfortable fit, customized to the shape of your ear
- Incredibly natural sound quality and effortless listening in many types of noisy situations, thanks to the industry’s most advanced technology
- Hassle-free automatic performance, with seamless transitions from one type of listening environment to another
- Easy to handle and operate

Would you like to know more about Stride custom hearing instruments? We’ll be glad to answer all of your questions; just give us a call at 315-676-1041.
