Go Daddy tracks overall visits to the site but doesn't break down by what pages are visited. I welcome feedback from all users of the website to tell me what they use the most and what suggestions they have for our website. Call me (215)849-5119, (215)792-4034 or email <mailto:webservant@district25aa.org>.

Please continue to use the website (District25aa.org), tell your home group members what the address is and remind them they can use the Bulletin Board and/or Calendar Page for AA related items such as meeting details (Zoom, In-Person, Both) and anniversary or other special events.

Go Daddy Account Costs

District 25 uses Go Daddy.com as our web site vender. The main product for editing the web site is called "Personal Website Builder" for an annual cost of \$143.88 plus tax. This cost will be auto renewed 12/5/21 using my personal credit card; once this happens I will request reimbursement from District 25. Below is an itemized list Go Daddy products we currently purchase. The next expense (\$359.40 plus tax) will be due February 2022. This is for the five email accounts used by the Officers and is a \$200.00 increase from previous years. Please review the table below and ask me any questions at our District meeting.

Cost/Due Date	Product		
\$143.88/12-5-21	Personal Website Builder	Renewal for 12 months	Used by Web Servant to create/edit website
\$143.88 plus tax	I will wait until my credit card is charged and then request reimbursement.

*MS 365 Email Essentials is a Microsoft product that includes the integrated applications listed above in the numbered list plus some file storage for each District Officer. Please talk with me if you have questions			

District 25 AA Web Servant report for monthly meeting Tuesday November 2, 2021

In February 2021 when I upgraded our email package there was no additional cost; however, after a recent discussion with Go Daddy they confirmed the renewal due 2/2/2022 is an increase of \$200.00. I recommend we keep MS 365 Email Essentials.

In order to get the most of this product I am suggesting the District Officers coordinated a time to review the many features available with MS 365. Any interested GSR is also welcome to participate.
