

Senior Engineer – Medicine Hat

Scheffer Andrew Ltd. is a medium sized engineering and planning consulting firm, which has operated in Western Canada, primarily Alberta, for over 40 years. Our work focuses on municipal, land development and transportation engineering.

Scheffer Andrew Ltd. offers an exciting, rewarding environment for our staff. We believe in promoting our employees' personal and professional well being. We know that if we take care of our people, they will take care of our clients.

We are currently seeking a Senior Engineer with municipal, land development and transportation engineering experience to join our team in our Medicine Hat Office.

Duties of this position will include:

- Managing projects from preliminary engineering to construction completion, applying your technical knowledge and experience. Delivering projects within established timeframes and budgets.
- Independently lead and manage projects to successful completion, applying your technical knowledge and experience including participating in studies, assessments, modeling, preliminary and detailed design, cost estimates, contract documents, tendering and contract administration.
- Coordination with Clients to ensure the Client's needs are fulfilled.
- Planning, organizing and directing resources to best serve the needs of our clients.
- Training and mentoring junior staff.
- Pursuing new business opportunities and leading proposal development for municipal, transportation, and drainage related projects.
- Developing and maintaining a strong knowledge base of the land development industry within the Medicine Hat office's market area.

The ideal candidate will have:

- A degree in Civil Engineering from a recognized school with a minimum of 15 years of civil engineering experience and be registered as a P.Eng. in Alberta.
- A thorough knowledge of current technology and the capability and efficiencies of specific engineering software for use in completing engineering assignments.
- Proficiency in land development engineering design, and municipal infrastructure including sewer, water, roads, storm water management, and familiarity with the approval processes in Alberta.
- Recent project experience with the City of Medicine Hat and/or other local Alberta municipalities.
- Experience in leading and dealing directly with design teams, clients and approval agencies to deliver projects within established timeframes and budgets.
- Ability to work independently.
- Ability to build relationships with new and existing clients.
- Exceptional leadership and communication abilities.
