To the hundreds and thousands of Bozeman hikers and bikers who enjoy the Triple Tree trails, please be aware of the proposed Limestone West Timber Harvest project, slated for the summer of 2017. Please voice your opinion in opposition to this project, unless you are willing to accept hiking and biking through potential clear cuts with the visual scar of a road that will traverse across the west face of Mount Ellis and the Triple Trees area.

Let your voice be heard in favor of keeping one of the few areas in close proximity to Bozeman wild and roadless. Encourage the DNRC to look elsewhere to other state lands to raise their statutory revenues for education. Submit your comments to the DNRC by April 10 at <http://dnrc.mt.gov/divisions/trust/forest-management/limestone-west>.

Your comments will most importantly advocate for the wild animals, such as moose, bear, porcupine, mountain lion, porcupine and many others that frequent the area.
