Submitter Information:

Today's Date:
Account Number:
Business Name:
Shipping Address:
Billing Address:
Phone Number:
Fax Number:
E-Mail Address:

Owner Information: (if different than submitter)

Name:
Address:
City, State & Zip Code:
E-mail Address:
Bird Type:
Bird Name/ID:
<input type="checkbox"/> Please send preliminary results and the certificate directly to the owner using the above information.

The cost for Bird Sexing is \$20 per sample. The submitter is responsible for payment and payment must accompany sample unless previous arrangements have been made.

Same Day results are now available for an extra fee. Please call for details.

Payment Method (please circle one): Check, money order, credit card, invoice.

Please Note: In the event that a submitted sample does not contain sufficient DNA for processing Bird Sexing Solutions will test another sample from the same bird at no charge. Refunds or credits will not be issued for samples with insufficient DNA. In no event shall Bird Sexing Solutions be liable for incidental, consequential, special or other damages of any nature even if Bird Sexing Solutions has been advised of the possibility of such damages.

Instructions for sample collection:

Blood: Blood samples are commonly obtained by clipping the toenail too short. An alternative is to use a lancet like the ones that diabetics use to check their blood sugar. A good place to lance is on the feet between the toes. If you see a vein that is a good place to start. With either collection method, you can preserve the blood by placing it directly onto the orderform, letting it dry and covering it with clear tape or by blotting the blood with a Qtip and letting it dry. Submit the sample with an orderform.

Eggshell: Let the shell dry completely, seal each shell in a separate container or bag (paper works best) and send it along with an order form.

Feathers: Submit 4-5 FRESHLY PLUCKED feathers. Molted feathers do not yield enough DNA for testing and will not be processed.

Results are usually available the next business day after we get the sample. We can call, text, e-mail or fax preliminary results or you are welcome to call us anytime.
