Mr. Merryman abilities cover over 14 years of leadership experience. His experiences cover from large military deployments to emergency response services to state and local governments. These include supporting the response & recovery efforts in the City of New Orleans, contracted as the Chief of Logistics for the Office of Homeland Security and Emergency Preparedness. He was responsible for overseeing all logistical services within Orleans Parish. This included corresponding with all Public Safety Offices, Office of Homeland Security and all other private organizations throughout the parish.

Mr. Merryman served as the Logistics Section Chief to the City of New Orleans, overseeing protective services and all programs within logistics operations of the EOC. Additionally, he was an evaluator (HSEEP) to Office of Homeland Security & Emergency Management in the state Exercises; (TICP) and (CAEP) in New Orleans.

He was introduced to hurricanes in 2004 when Hurricane Charlie cut through central Florida. He was responsible for providing emergency management support to Polk County, Florida for hurricanes Charley, Francis, Jeanne and Ivan. He managed operations for debris management in Broward and Pasco County Florida. He also designed, coordinated and implemented operational procedures for tracking assets purchased or used during these projects. He also planned and supervised the redeployment of emergency response vehicles and equipment from Polk County to Broward, Pasco and Hillsboro Counties.

Mr. Merryman also has background with UASI Grant in Tampa, Florida. He was responsible for stakeholder meetings of 5 local authorities that met once a month for grant progress and review of purchases and/or obtaining approval for future purchases pertaining to the grant. His duties also included reconciling all equipment to the AEL and the order tracking database.

Military Service from 1991- 2001, just out of the military Mr. Merryman joined forces on the SASR Project with Lockheed Martin. The SASR Project was a TSA Contract. This involved a different objective to be completed according to a timeline provided by Congress. Mr. Merryman was brought in to the project as a Analyst, responsible for providing technical assistance which included conducting assessments on Airport Security checkpoints and redesign of each checkpoint. Each checkpoint was given the utmost attention to detail. After each milestone was reached, the stakeholders involved were briefed and kept up to date on past, present and future milestones.
