Purpose of this Project

The purpose of any animal project is to help teach youth valuable life skills. These are skills that youth need in order to transition into a healthy, responsible, contributing adult. Animal projects specifically target the life skills of:

- **Responsibility** (*feeding and caring for an animal on a regular basis; completing assigned tasks*)
- **Determination** (*working with the animal on a regular basis in order to show it*)
- **Record keeping** (*keeping accurate records of the animal's health and feeding; recording information*)
- **Money/Resource Management** (*keeping track of how much money or other resources have been invested in the project, and managing money and resources wisely*)
- **Sportsmanship** (*practice being a good winner and a good loser through competition with peers and with self; dealing with constructive criticism, even when you've given your best*)

“As the exhibitor of this project, I certify that I have personally kept records and completed this record book.”

Keeping records is an important part of any project, but especially for a market animal project. If you don't keep any records, then you have no idea whether you made money or lost money at the end of your project.

General Project Records - each question has a point value!

1. What is the breed of your swine? 2. Why did you choose this breed?
3. When did you select your swine (what month)?

Rate of Gain

Starting weight of animal on 12/09/2022 (estimate is okay) _____

Ending weight of animal on 03/15/2023 at final weigh in _____

Total Pounds Gained (ending weight minus starting weight) _____

Total days on Feed _____ 96

Rate of Gain (pounds gained divided by days on feed) _____

Expenses and Income

An expense is something that you pay for, or that costs you money. Your project expenses include the cost or value of your animal at the beginning of the project, what you paid for feed, what you paid for veterinary bills, and what you paid to show your animal.

Income is money that your project brings you. Examples of project income include what your animal is worth at the end of your project (or what someone pays for your pig), any show premiums you win, and any sponsorships you are given.

For record book purposes, your project begins at end of the tagging period 12/09/2022

PROJECT EXPENSES

Animal Expenses

What you paid for your swine OR the value of your swine if donated or self-raised.

1. If you bought your animal, simply write down the actual purchase price.
2. If you were given your swine, or if it was born on your property, simply write down the fair market value of your swine. (Not a constant price, do research!)

Project Story

Your story should answer the following questions about your project experience and be a minimum of five paragraphs in length. Grammar, spelling, neatness, and details all matter.

1. What is the breed of your animal, and where did you get it?
2. What new skills did you learn from this project?
3. Who helped you with this project?
4. What did you like best or least about this project?
5. What would you do differently, if anything, next time?

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

Project Photos

Include five to eight photos of your project with CAPTIONS that tell the story within the picture. Exhibitors must capture at least three skills learned or improved during the project year.
