

## TOTF Webinar Summary

Wednesday, June 20, 2012, 10 a.m. ET

[Webinar Recording](#) is available

**Objectives:** Review progress on Scenario 2 transmission build out  
Initial review of reliability tests for Scenario 1

### TOTF Members Attending:

**Generation Owners:** Michael Goggin

**NGOs:** Wil Burns, Ed Pfeiffer

**Public Power/TDUs:** Dustin Betz

**End Users:** Erin Hogan

**States:** Michael Wegner, Hisham Choueiki, Bob Pauley, Marya White, Craig Taborsky, Doug Gotham

**Transmission Owners:** Lucyna Khazanovich (alt. for Anie Philip), Evan Wilcox

**Canada:**

**Other Suppliers:**

**EIPC Members:** David Whiteley (Exec. Dir.), David Till (TOTF co-chair), Jerrod Moll, Kerry Marinan, Fred Von Pinho, Flora Flygt, David Duebner, John Buechler

### 1. Update on Task 7, Scenario 2 (National RPS Implemented Regionally) (Jerrod Moll, Southern Company)

- Contingency Analysis (N-1) indicates both constraints and non-convergence
- Over 450 constraints identified
- PAs have begun identifying projects to mitigate constraints for rerun; after several re-runs, the number of constraints has been reduced to about 80
- Most fixes are local in nature, not changes to the bulk transmission system
- Expect to reduce constraints to 0 by next week's TOTF meeting in Baltimore

### 2. Task 8 analysis of Scenario 1 (Combined Federal Policy) (Jerrod Moll)

- Generator outage, Common Tower outage and Bus Fault tests resulted in 140 local-type problems.
- Most fixes will be within the NEEM region; have not begun developing solutions yet
- Will continue to work to reduce significantly
- Stakeholder-proposed alternative by Randell Johnson is under consideration to see if it is a superior solution (for Scenario 3 in ISO-NE)
  - Criteria used to determine which alternative is best will include cost savings and also if all constraints are mitigated
- Will update maps and solution sets for meeting next week

### 3. Next Steps (Margaret Pinard, Keystone)

- June 29<sup>th</sup> TOTF meeting in Baltimore will review near-final Scenario 2 contingency analysis and Scenario 1 & 3 reliability tests (task 8)
- CEII cleared participants only
- Limited webinar access will be available for CEII-cleared individuals

**Other Webinar Attendees**

Garrett	Bissell
Terry	Black
Jim	Busbin
Keith	Daniel
Ben	D'Antonio
Jonathan	Forward
Wayne	Galli
Joann	Henry
Toby	Hu
Diana	McNally-Barsotti
Bob	Pierce
Tyler	Ruthven
Maryam	Sharif
George	Smith
Ken	Wei
