To whom it may concern:

It is with great pleasure that I recommend Andrea Poeschl for your math teaching position. I have known her for three years. She has tutored my junior-high daughter in Algebra 1 for the past two years.

I am providing this reference letter because Andrea has always displayed a high degree of integrity, commitment, and ambition. She is definitely a remarkable teacher. She has proven her teaching ability by helping improve my daughters' grades as well as help her to pass her high school algebra proficiency test.

I would recommend Andrea without reservation because her enthusiasm is very contagious to her students. I think that is a very valuable quality in those teaching children. When my daughters go back to school in the fall, I would be thrilled if they had the privilege of having her as a teacher.
