We are committed to providing you with the BEST chiropractic care possible and have established our Financial Policies to achieve that goal. In accepting care, you agree to the following:

- I agree to pay for all services rendered to me at the time services are provided, unless I participate in one of the available Corrective Adjustment Plans (CAP), which are designed to be the most cost effective way to keep me and my family as healthy as possible.
- I acknowledge responsibility for my account and guarantee payment of all charges against this account.
- I understand that any portion of the balance over 90 days old will be submitted to a collection agency and subject to a finance charge.
- I agree in the event of non-payment to bear cost the cost of collections and/or court costs and reasonable legal fees, should this be required.

If I have health insurance:

- I understand and agree that health and auto insurance policies are an agreement between the insurance carrier and myself.
- I certify that I (or my dependent) have insurance coverage with the Health Insurance Company mentioned above and assign directly to Dr. Nylsa A. Correa and Naturally Chiropractic all insurance benefits.
- I authorize Dr. Nylsa A. Correa and Naturally Chiropractic to verify my benefits and acknowledge that verification is not a guarantee, since final benefits will be determined upon receipt of the claim.
- I understand that I am financially responsible for all charges whether or not paid by the insurance.
- I authorize Dr. Nylsa A. Correa and Naturally Chiropractic to release all information necessary to secure the payment of benefits.

I have read, understand and agree to abide by the above policies.

Office Policies & Procedures

1. Symptoms: Regardless of the reason you came to our office, it is important to understand the difference between symptoms and their cause. As your spine is corrected you will have good days and bad days. Don't get caught up in this roller coaster; it is normal. You will be happiest and get the best results if you understand that this is a process designed to get you functioning at your peak level and get you on the road to wellness. This takes time and is a lifelong process. Stay focused on this outcome so you are pleased with your results and enjoy the journey.

2. Appointments: A certain number of adjustments in a given time period is necessary to get the best results from your care and create wellness in your life. While we can't predict the exact number of adjustments you will need, we do know that consistency creates the best results. Therefore it is absolutely necessary that you keep your appointments. If you need to change an appointment, please call in advance to reschedule it within 24 hours so you stay on target for wellness. *It is your responsibility to get here*. We will do all we can to accommodate you. If you miss an appointment you will be charged a visit fee. This fee is not covered by your health insurance and if you are under a care plan we will deduct a visit from your plan.

3. Hours: We set up ADJUSTMENT PRIME TIME HOURS to allow your doctor to totally focus on giving you the best care possible without distraction. The hours are the following: Monday & Thursday 9:30 am – 11:30 am, 4:00 pm – 6:00 pm and Wednesday 4:00- pm – 7:00 pm. We understand there are emergencies, but we ask that you call us to let us know if you won't be able to make it to your appointment and reschedule. If you don't show up for your appointment without previous cancellation you will be charged \$50.

4. Daily Visit Procedure: Each time you arrive for your adjustment, sign in and have a seat in the reception room until you are directed to an adjusting room by the front desk chiropractic assistant with your travel card. Go back to the adjusting room and place a piece of face cover on the table, lay down on your stomach and relax until the doctor arrives. Please help keep things moving by lying down quietly and relaxing for your adjustment. When you are finished with the Doctor please take your travel card back to the front desk for check out.

5. Progress Evaluation: We want to make sure you are getting the best care possible, therefore we perform a re-evaluation to assess your progress every 10 to 12 visits. On this visit you will be taken to the Exam Room. Plan on spending approximately 30 minutes on this day. There is an additional fee for this visit unless you are on a Care Plan that is all-inclusive. Immediately following your Progress Evaluation, the doctor will share your results. At the end of your Corrective Adjustment Plan you will receive recommendations for a Wellness Adjustment Plan to help you stay as healthy as possible.

6. Results: Many factors that we have no control over may affect how quickly you respond to your care. These include your age, diet, stress level, activity level, occupation, how long you have had your vertebral subluxations, and how many subluxations are present in your spine. Regardless of these circumstances, your body has an incredible ability to heal itself. The recommendations we make will consider these factors along with the current condition of your spine. We will do all we can to get you to Wellness Care as quickly as possible.

7. Most Important: We will be asking you to make a commitment within yourself to:

- Be here when due. Stick with the program of care.
- Attend at least twice a year to our health workshops.
- Remember, the power that made the body, heals the body.

NATURALLY CHIROPRACTIC

TERMS OF ACCEPTANCE

When a patient seeks chiropractic care and we accept such a patient for care, it is essential for both to be working towards the same objective.

It is important that each patient understand both the objective and the method that will be able to attain it. This will prevent any confusion or disappointment.

Chiropractic has only one goal, and that is to eliminate vertebral subluxations. On a daily basis, we experience physical, chemical and emotional stresses that often accumulate and result in these vertebral subluxations, which in turn can cause a serious loss of health and well-being. It is important that each patient understand both the objective and the method that will be used to attain it. This will prevent any confusion or dissatisfaction.

A chiropractic adjustment is the specific application of forces to facilitate the body's correction of vertebral subluxation. Our chiropractic method of correction is by specific adjustments to the spine, by hand or mechanical means. You may feel a "click" or "pop", such as the noise when a knuckle is cracked, and you may feel movement of the joint.

Health is a state of optimal physical, mental and social well being, not merely the absence of disease.

Vertebral Subluxation is a misalignment of one or more of the 24 vertebrae in the spinal column which causes alteration of nerve function and interference to the transmission of mental impulses resulting in a lessening of the body's innate ability to express its maximum health potential. Often times, the effects of these vertebral subluxations are gradual in nature and can remain undetected until the problem becomes severe. Symptoms are usually the last thing to show up in a disease process and the first thing to disappear as the correction begins.

We do not offer to diagnose or treat any disease or condition other than vertebral subluxation. However, if during the course of a chiropractic spinal evaluation, we encounter non-chiropractic or unusual findings, we will advise you. If you desire advice, diagnosis or treatment for those findings, we will recommend that you seek the services of a health care provider who specializes in that area.

Regardless of what the disease is called, we do not offer to treat it. Nor do we offer advice regarding treatment prescribed by others. OUR ONLY PRACTICE OBJECTIVE is to eliminate a major interference to the expression of the body's innate wisdom. Our only method is specific adjusting to correct vertebral subluxation.

Care Choices: Patients come to our office for a variety of reasons.

- *Crisis/relief care: symptomatic pain relief (patch up care). It corrects the most recent layer of spinal or neurological damage.*
- *Reconstructive/Corrective Care: cause of problem corrected as well as symptomatic relief (fix-up care). Concerned with corrected years of damage that occurred when there were few symptoms.*
- *Wellness/Maintenance Care: for relief and spinal correction in addition to looking forward to maintaining heightened state of wellness and vitality.*

Please choose type of care that best fits your health and lifestyle goals: (Please initial your response)

-----Relief care -----Corrective care -----Wellness care -----I would like the doctor to select the appropriate care for me

I understand that no guarantee of assurance will be made or has been made to the results that may be obtained.

I, _____ have read and fully understand the above statement.

Any questions regarding the doctor's objectives pertaining to my care in this office have been answered to my complete satisfaction. I therefore accept chiropractic care on this basis.

Patient's Signature _____ Date _____

Consent to evaluate and adjust a minor/child

I, _____, being the parent or legal guardian of _____ have fully read and fully understand the above terms of acceptance and hereby grant permission for my child to receive chiropractic care

NATURALLY CHIROPRACTIC

Consent to evaluate and adjust a pregnant woman

When a pregnant woman seeks the benefits of the Webster Technique and we accept a patient for such care, it is essential for both to be working towards the same objective. Chiropractic has only one goal. It is important that each patient understand the objective and the method that will be used to attain it. This will prevent any confusion or disappointment.

The tense muscles and ligaments in the pelvis, caused by misalignment in the sacrum, may lead to constraint in the uterus. When the uterus is torqued and constrained in this manner, it is more difficult for the baby to move into the best possible position for birth. The Webster Technique is a specific chiropractic adjustment, which corrects subluxation in the sacrum. As a result, the mother's tense pelvic muscles and ligaments relax, enhancing the physiological environment needed for normal baby positioning. We do not offer to diagnose or treat any condition. We are not turning "malpositioned" babies. We do not determine baby position. This technique is a specific chiropractic adjustment, which removes interference to the nervous system, balances pelvic muscles and ligaments, alleviates constraint to the mother's uterus allowing for optimal baby positioning. Our care is detection of and specific adjusting of vertebral subluxation.

I, _____ have read and fully understand the above statement. (please print your name)
