

# THE STAR OF JACOB

## COSMIC CONFIGURATION OF THE CRUCIFIXION

The purpose of this illustration is to examine the major astronomical occurrences in -5 BC of the Start of David hexagram alignment as being the possible Star of Bethlehem. This study strongly agrees with the theory though that the 'Star of Bethlehem' was the planet Jupiter and that the signs had to do with the conjunctions of various planets, mainly Jupiter with Regulus and Venus. This study suggests that the March 2, -5 BC Star of David alignment is actually a depiction of the Cosmic Crucifixion of the coming Messiah, the King; as to the specific purpose for this divine and miraculous birth. This study strongly suggests that 3 years from this Cosmic Crucifixion alignment, the birth of Christ occurred on the Passover feast in March of -2 BC. This study suggests that the hexagram Star of David could not have been the Star of Bethlehem for the reasons that will be considered in the study.

The planetary configuration of this Star of David hexagram of March 2, -5BC depicts the da Vinci Man that is famously depicted with out-stretch arms within a square and circle. The number 6 is the number of Man according to the Bible. Each of the 5 planets are depicting the point of the extremities of the 'Cosmic Messiah' that were to be pierced through in the flesh. It is as though the 5 planets or stars are denoting the number of piercings Jesus had literally on the Cross done by the Roman nails. This means that in Eternity Past before time, in some mysterious way even before Creation or Humanity even sinned on Earth, the work and purpose of Jesus as The Christ needing to die to redeem Humanity was already good as done. If this assertion might seem far-fetched to accept or contemplate, the Bible declares that 'the Christ has been slain since the foundations of the world.'

SPRING EQUINOX  
MAR 21-22

This 'Star Man' depiction of a crucified Cosmic Christ is as if the LORD is advertising that the coming Christ that is to be born for the purpose of dying and that of a specific death by crucifixion as the Christ had to be physically pierced. The Christ of YHVH would be placed upon a physical 'cross' as the stars or planets depict a crucifixion against the celestial Cardinal Cross.

What this illustration strongly suggests is that the Star of David was not announcing the 'birth' of the Messiah but the 'death' and specifically by crucifixion on a cross based on the cosmology of the alignment that that precise time. From the top view of the Solar System on March 2, -5BC, the hexagram Star of David can be depicted as a Cosmic Crucifixion. In this rendition, there are some amazing Biblically prophetic implications of such a celestial configuration that has been largely overlooked. The six planets configure the 'Star or Cosmic-Man'. Venus is prominent as the head that is attributed to one of the titles of the Risen Messiah, the Bright and Morning Star. The planet Venus is at the top of this 'pyramid' and 'head' of the Cosmic-Man as if it is a torch of light that the planet's name alludes to.

One unique observation that the Hexagram Star of David portrays is the opposition of the corresponding angles of Virgo with Pisces at 180 degrees. What is prominent is that Earth is in Virgo and Uranus in Pisces. These 2 symbols would later become the trademark of Messiah' miracles associated with the 2 Fish and 5 loaves of Bread that Virgo, has in her hands, corn/wheat, etc. Uranus is associated with the son of the Gods.

Although the Star of David configuration is a rare phenomenon, and it is assigned to when kings are birthed, if this was the birth of Jesus Christ, that would make Him over 36 years old by the time of His Passover crucifixion around 32 or 33 AD. It could be the case that this significant astronomical sign signaled the sure coming birth of a King but perhaps 3 years away as that is when the peculiar conjunctions and alignments of certain planets occurs in specific places and times to include the profound triple conjunction of Jupiter, the planet of the Messiah with Regulus. Also the double conjunction of Jupiter-Venus are 9 months apart. There are 3 main events that defined the bench marks for the mission of the Messiah, His birth, baptism and death. Each timeframe was associated with celestial conjunctions and alignments. For example if 32 AD was His death, then 3.5 years earlier would be 28.5 AD which would correlated to His baptism in the River Jordan that commemorated this ministry. There is interestingly another Star of David alignment in 28 AD.

## The Cosmic Crucifixion

The Following is a rendition of the Solar System as it was configured on March 2, -5BC. The rotation is 180 to show the perspective that the hexagram alignment is also depicting a pyramid pattern with Venus at the top as if a torch of light that the planet alludes to. Prior research as pegged this particular alignment to occur once in about ~40,000,000 years by the research of John Charles Webb. Other studies have shown that although extremely rare, the past decades have produced a series of spectacular 13 such 'Star of David' alignments.

## The Rejected Capstone

'Jesus said to them, "Have you never read in the Scriptures: "The stone the builders rejected has become the cornerstone; the Lord has done this, and it is marvelous in our eyes"? -Matthew 21:42

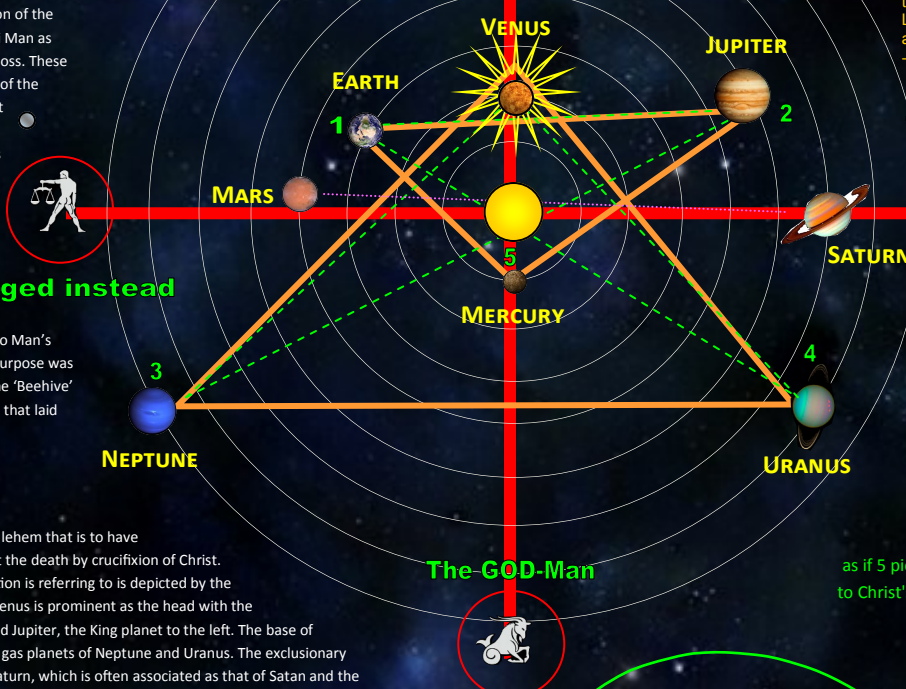

Spectacularly the planetary configuration of the Celestial Crucifixion depicts the da Vinci Man as the star against the celestial Cardinal Cross. These 4 points also denote the Biblical theme of the redemption as the Messiah, Jesus Christ would be as that Scapegoat led away outside Jerusalem to take away the sins of Humanity. He would be the GOD-Man, 100% GOD and Man having a dual nature in one person as Capricorn represents. He would take upon himself on the Cross of Calvary the wrath and judgment of GOD for the infraction against the Law of GOD due to Man's sin as represented by Libra. Lastly the purpose was for the sheepfold, as Cancer contains the 'Beehive' that of humanity as the Good Shepherd that laid down His life for the sheep.

This Star of David is not the Star of Bethlehem that is to have announced the birth of the Messiah but the death by crucifixion of Christ. The Cosmic Crucifixion that this illustration is referring to is depicted by the top view of the Solar System in which Venus is prominent as the head with the Earth at the metaphorical right hand and Jupiter, the King planet to the left. The base of the pyramid are sustained by the noble gas planets of Neptune and Uranus. The exclusionary planets are Mars the God of War and Saturn, which is often associated as that of Satan and the nemesis to Jupiter. It is as if GOD set aside the war or enmity with Mankind. This Celestial Crucifixion portrays the foretold oracle that the Messiah was to be pierced through the hands and feet, meaning that the Creator would in some manner have flesh as a human. This is the tenants of Christianity, that GOD the SON took on human flesh, born of a human mother, sinless to be the 2nd Adam to redeem and pay for restoring the fallen race of Adam. That This Jesus was The Christ, not one of the Christ, was crucified, died, buried and rose from the dead due to His perfect sinless nature and bestows Eternal Life and forgiveness of Sins to all that come to Jesus Christ as LORD and Savior. The message of the Bible is that now can only Jesus can bestow Eternal Life and forgiveness of sins to all that come to Jesus Christ as LORD and Savior as one surrenders the heart, mind and soul in an exchange for a new one.

## The Bright & Morning Star

'I, Yeshua, have sent My Angel to testify these things among you before the Churches. I AM THE LIVING GOD, The Root and The Offspring of David, and his Descendant, and The Bright Morning Star.'  
-Revelation 22:16

## The Scapegoat

It is this strongly suggested that 3 years from this Cosmic Crucifixion, the birth of Christ occurred on a Passover feast in March of -2 BC as it is the season for the birthing of lambs. The lambing would be out in the fields as were the shepherds and thus there would have been room in the mangers or stalls of the animals to accommodate a delivery. It would also be symbolically that the Messiah would be born and die on a Passover.

As the Passover Meal celebration was concluding, a Total Lunar Eclipse (Blood Moon) occurred as if to 'punctuate' this time with its apex at 23:02 hrs. The Stellarium software confirms the **Apr 14, 32 AD** Lunar Eclipse in Libra.

This illustration shows the day of the Passover by hours in which the Crucifixion of Jesus Christ took place on Passover. What the delineation attempts to show is that the duration of the crucifixion of 3 hours approximates the phi ratio proportion of time that this study suggests correlated precisely to the very ritual timing of the Passover sacrifice at the Temple and meal thereafter. The end is punctuated by a Total Blood moon an hour before midnight. This would concur with the eclipse that occurred in 32 AD.
