5 CENTS

ALDERMEN TAKE THE BLUNT END OF MAYORAL ATTACK

POSING WITH UNITED NATIONS FLAGS at the U.N. Seminar for High School Students being held this week at Macdonald College are, Lachine pupils from left Gail Blackwood, George Keirstead, Rosamond Eben, Harry Blitman, Lachine High; Louise Trudeau, Monique Desautels, Ecole Savoie; and Jacques Richer, Bishop Whalen.

STANDING ROOM ONLY AT UNPRECEDENTED MEETING OF FULL CITY COUNCIL

BY DONNA COTE

At a meeting unprecedented in Dorval's civic history, aldermen underwent a blistering attack from Mayor John Pratt on a variety of subjects ranging from water pollution to alleged fixing of traffic tickets by civic officials.

Accompanied by cheers and applause from an overflow audience, even the absent city manager did not escape. He was criticized for a letter to the Mayor and Councilors suggesting that city employees be barred from attending council meetings unless requested to do so.

"So long as I am Mayor any member of the staff is free to come to council," he said.

Singled out for special criticism was Ald. W.G. Milsom for calling a closure to the previous meeting before members of the audience had been allowed to speak.

At the suggestion of the Mayor, Ald. Milsom apologized for calling the closure, although he claimed that he understood the meeting was a special one and therefore was not concerned with outside business.

The meeting closed soon after 1 a.m. with little decisive action having been taken on any subject.

Drinking Water Had Bacteria

On two days in June, Dorval's water supply contained coliform bacteria, according to a sample sent for the normal monthly analysis.

"This," said Mayor John Pratt at Friday's council meeting, commenting upon the report, "could be bad for August, when the water is lower than usual."

After the meeting the Mayor stated privately that the bacteria grow in the human colon. When they are found in abundance it means polluted water is being consumed.

"We expect our enlarged filtration plant to do the job of both a sewage treatment plant and a filtration plant when we draw in highly polluted water and make it fit for human consumption," he said.

Civic Employees Given Warning On Ticket 'Fixing'

No member of the City Hall staff or any member of the council may approach the police department to fix tickets for traffic violation.

This was stressed in no uncertain terms by Mayor John Pratt following rumours of alleged ticket fixing. In a letter to acting Police and Fire Director Pierre Garlepy read at Friday's meeting of council, the Mayor said it would mean instant suspension of any civic official accused of any such attempt.

Copies of all reports from Mr. Garlepy to the city manager, are to go to the Mayor. The whole question was handed to the Police and Fire Commissioner, Ald. John Macdonald, for action and report.

The Mayor refuted this. All that would be necessary would be contact with the Minister of Public Works, Docks, he said, are built every day.

Ald. Goodfellow: The Island is the best site, but citizens are best served with a permanent link.

Mayor Pratt: Would you be willing to wait five to 10 years and still be doing something against the objections of many citizens?

Ald. Milsom: We should determine the cost of a bridge. Mayor Pratt: I disagree. I suggest that we should deter-

Zoning By-Law Change Sparks Fresh Outburst

More heat was engendered over a gas service station at the new shopping plaza on Cardinal avenue, and a claim that the zoning by-laws had been violated.

It was learned later during the debate, when a letter was read from the chairman of the city's planning committee, that the zoning had been changed from Class 1 to Class 2 on a motion by Ald. W. G. Milsom.

The planning committee chairman, Ted Fraser, said in a letter that Class 1 did not permit gas stations, but that when the plans were ready they had by-passed his committee and gone directly to the architectural committee. This committee, finding the plans conformed, passed them. Ald. Milsom's motion had never been submitted to Mr. Fraser's committee.

Mr. John Wylie, of Pine-wood, who led a deputation from the area, sought several times to seek answers to his questions from aldermen but none were forthcoming.

Silence, said Mayor Pratt, seemed to be his answer. Ald. John Macdonald thought drastic errors had been made and said he would like to consult the legal adviser.

Mr. Wylie persisted in his demand that a stop order which, he claimed, had been ordered at a previous council meeting, be put into effect.

It was finally agreed that a meeting be held this week between the committee of the whole, the legal adviser and other parties, including the construction company.

It was during this debate that a letter from City Manager Rene LeBlanc was read

Lawn Bowlers To Aid Lachine General Fund

Some of Canada's top lawn bowlers will be competing Sunday in the Lachine General Hospital benefit tournament, to be held jointly this year at the Lachine Lawn Bowling Club and the Riverside Lawn Bowling Club.

The tournament, an annual affair, is claimed to be the largest lawn bowling tournament in Canada.

L.A. Seton, QC, a member of the Lachine General Hospital's board of management will roll the first ball at the Riverside club and D.R. Ken-

nedy, another member of the board and chairman of the Lachine General's deficit campaign which opens Aug. 26, will officiate at the Lachine club's headquarters where he will also present trophies.

In the past few years the Lachine Lawn Bowling Club has presented the Lachine General something in the region of \$2,000. Last year the tournament drew \$272.

Lachine General Hospital, in its Aug. 26-Sept. 8 campaign, is seeking to wipe out deficits accrued up to 1961 of \$110,000.

JOHN PRATT COMMENTS:

IGNORANCE ALLIED TO APATHY

Although I have written innumerable columns on the subject of water pollution and the many problems that beset the construction of sewage disposal plants, I still meet a surprisingly large number of people whose indignation over the matter is only matched by their ignorance of it. "Indignant" and "ignorant" are not only very close in rhyme, they are also very closely associated in the mental processes of many average citizens. Anyone who attends municipal council meetings inevitably observes sooner or later that the most irate and indignant citizens who come to complain are usually the most ignorant of the facts surrounding their case. It is equally true that when the fault really lies with the municipal council, the attitude of a well-informed public is usually one of quiet disgust and reasoned logic rather than offensive indignation.

Politicians are often appalled at the ignorance and apathy of the public where politics is concerned. Unfortunately this is usually because the average politician has an extremely limited interest in anything outside of his own narrow field, and he wrongly expects the public by every means at my concentrated interest. Similarly, some men absorb the financial columns and never look at the sport pages. Some pore over the classified ads and never even glance at the social pages. Some read the funnies and never look at the editorial pages. Strangely enough, only the busiest men seem to be able to find time to read the whole paper, and the busiest of all usually find time to read several newspapers and periodicals every day.

It is all part of the modern tendency to become more and more specialized in our interests. Day by day man is learning more and more about less and less until finally, as some sage wit has remarked, he will know everything about nothing.

To get back to the subject of water pollution, I feel I have done my best to place the many facts of this complicated business before the public by every means at my disposal: including speeches; the press; radio; television; and even films. My efforts as a Member of the Federal Parliament were successful, and I hope that my efforts as mayor of Dorval will be equally successful in obtaining the eventual construction of a sewage disposal plant for the municipal

KEEPING AN EYE OPEN

Dorval homeowners owe a debt of gratitude to Mayor Pratt and the city's more vigilant community associations. By bringing pressure to bear on their view, they have been sharp enough to resist legislation which, in the changing pattern of local politics all have shown diligence, tenaciousness, and some patience. The leader of this revolt against delay and, in some cases, arbitrary action has, undoubtedly, been Mayor Pratt.

But for him the re-zoning by-law now on the order books, might have gone through unquestioned, while the touchy problem of water pollution could quite easily have been side-stepped.

If the city's aldermen are not now on their toes then they never will be. The two current controversies, plus a few others, have kept them sitting long hours in council and in committee. If only for the time spent away from their homes and beds, they have earned their expense money!

MALES ARE NOT IMMUNE

It seems that even males are being encompassed in the beauty salon treatment. Whereas at one time it was sufficient to ask a gobby barber for a haircut or a shave, today there is a whole list of treatments and styles from which to choose.

A haircut, indeed, is a complicated procedure. One does not merely have the hair cut. It is styled.

There is, for example, the Hollywood cut, the brush or the crew cuts. There are a variety of hair shampoos, vibro massages, facials and the like. And there are specialisms, too.

Throw away the clippers. With us now, is the artiste with the razor, specially imported from the Continent, who spurns anything but the open blade.

Yes, the barber has graduated from merely cutting hair and pulling teeth. Looking at his list of accomplishments makes the hair stand on edge, as does the price for this complicated business.

Letters To The Editor

An Open Letter From Alderman Gordon Giencross

Much has been said and written regarding council's actions and inactions, some very objectively. Therefore I would like to say a few words..... Whether Mr. Pratt THINKS it or not the meeting of July 23 WAS a SPECIAL meeting. It's in the records. Our reason for the special meeting was that we had scheduled three commission meetings after a short council session called to read a bylaw to shorten the interval on our Filtration plant contract. It was after midnight when I got home as it was.

I mention also two items in the actual minutes of the meeting of July 16th to indicate that this was the case: minute #5684h which adjourned the committee meeting to 7:30 p.m., Aug 3rd, and Minute #5708 which tabled the P R Commission Report to "the next regular meeting Aug 3rd".

help of council. I do not feel sorry at all for the remainder who apparently, according to the paper, wanted to bring up and rehash sewage disposal. We spent 2-1/2 hrs. July 6th and well over 1-1/2 hrs July 16th, so I feel they have had ample time to air their grievances.

Now referring to the verbal attack in the Dorval Reporter last week, I would like to point out something we did after this so-called closure. I quote here a report regarding the Westwood Park taxes. This was back in 1954 and 60 when our present Mayor and Mrs. Hazel Ballantyne were in our position. Also Sept. 1960, George Goodale was sitting here. We are trying desperately to clear up mistakes made three councils ago that have continued till now and all have spent their whole tenure of office trying to fix, to no avail, and we are criticized most sarcastically for not getting it straightened out right away.

I also personally discussed with a group of people from Clement regarding paving of the street and told them that the meeting on the 23rd was not a regular meeting but a special meeting, and therefore to come Aug 3rd. If this was to be a regular meeting, then we would have had a committee meeting at 7:30 and a council meeting at 9 p.m., not 8 p.m.

I would also like to take this opportunity to say that the old tradition editorial of the Montreal Star July 27th was pretty one-sided and reflected poor judgement. I feel that both sides should be objectively reported. One call to me would have at least given an outline of our reasons.

I am sorry for members of the Westwood Park group and to the Glendennings of Decary Place if they are still having trouble with their neighbours and still require

Bylaws 331 approved Nov 1953 and bylaw 358, approved Nov 1954 and bylaw 359 approved Dec 1954, was ratified by a council made up of Mayor Ovila Cardinal and aldermen R. Kelller, John Pratt, Geo. Brunette G. Milburn and Mrs Hazel Ballantyne. The bylaws provided for local im-

THE NEW OIL INTERCEPTOR at the CNR's Montreal yard is inspected by Joe Achtman, field engineer. Before the big filter went into operation, waste grease and oil from the yard were a source of pollution of the stream that runs through the yard and empties into Lake St. Louis.

LAKE LESS POLLUTED DUE TO CNR FILTER

Montreal --- Canadian National Railways has placed in operation at its Montreal Yard a device to filter off waste grease and diesel oil, one of the sources of pollution of a stream running through the yard and the municipalities of Dorval and Lachine.

The problem arose last Fall when the world's largest automatic freight yard went into operation. The drainage system of its diesel locomotive repair shop began emptying into an open stream.

The stream runs through other industrial properties, the CN Yard, Summerlea Golf Club and Lachine and Dorval before it empties into Lake St. Louis.

The principle of the oil interceptor or filter, designed and built by CN's St. Lawrence Region engineering department, is to stop the water just after it leaves the diesel shop but before it enters the main stream, and skim the oil off the top.

A spokesman for the rail-

Handle Hole Saves Bristles

Quality paint brushes generally have a small round hole near the end of the handle so that the brush can be suspended in a solvent for cleaning purposes. A brush should not stand on its bristle tips because the bristles will acquire a permanent bend which cannot be removed. If there's no hole in your brush handles, you can easily make one with a hand or electric drill.

Former Alderman Straighten Record In Tax Dispute

Alderman Gordon Glencross, chairman of Dorval's finance commission, was brought up sharply by former alderman George Goodale over a dispute between a group of taxpayers from Westwood Village and council concerning overpaid improvement taxes.

Mr. Glencross claimed that the "mix-up" began 10 years ago when former alderman Mrs. Hazel Ballantyne read the first by-law, and "then George Goodale tried to do something."

Mr. Goodale put the record straight by pointing out that a by-law seeking to correct the situation for homeowners on Thorncrest and Westwood avenues was given first reading 17 March, 1961, just before the new council was elected, and the final two readings 16 Sept. 1961.

Had it gone to Quebec for ratification, as it should have done, the error would have been corrected, he said.

The deputation, which has been striving for several months to have the matter settled, was prevented from revoking its disapproval when closure was called to last month's council meeting. It was again postponed last Friday when the group leader suggested holding over questions until the next meeting because of the lateness of the hour.

Ald. Glencross, however, promised to try and "straighten out" the mess.

"We cannot rescind taxes or interest", he said. "What we plan to do is to reduce taxes for the balance of the 20-25 years to even things out".

POLICE REPORT SHOWS 106 INJURED IN JUNE

Traffic accidents in Dorval during the month of June totalled 106, with one fatality and 18 injuries.

These figures are contained in a report from Acting Police and Fire Director P. Gariepy, presented at Friday's council meeting. They compare with 100 accidents in the like period of 1961 and 13 accidents.

Figures in most of the areas covered by the report show an increase over 1961.

In June, for example, 1033 traffic tickets were issued compared with 373 last year at that time, while 137 were summoned to municipal court, 13 of which were "trapped" by the city's radar system. Fines and costs totalled \$1,361 compared with \$793 in 1961.

There were four minor fires.

In other Council news it was reported that the Federal Board of Transport Commissioners has approved in principle the elimination of the CPR and CNR railroad crossing at Sources road.

The Quebec department of roads has also been asked to move for an underpass as plans, specifications and detailed tenders are necessary before Federal funds can be

made available.

Mayor Pratt said it was unlikely that an underpass would be built until Quebec is ready.

Ald. John Macdonald raised the question of train whistling at Pine Beach.

Mayor Pratt explained that as it is a legal crossing whistles must blow there. Pine Beach, he added, also needed a pedestrian underpass.

It was reported that Dorval stores may now remain open until 7 p.m. following passage of a by-law to this effect by the Montreal Metropolitan Corporation.

Lachine General Hospital has been given permission to hold a door-to-door canvass in the city for its deficit campaign Aug. 26-Sept. 8.

CATHOLIC SCHOOL BOARD TO ENLARGE KINDERGARTEN

Dorval Catholic School Commission is building separate quarters for the 90 children who attend St. Veronica's kindergarten. The additional wing will complete facilities for the pre-schoolers.

With the completion of the section in early October, it will bring to five the number of kindergarten classes organized by the Commission. It is probable that, by September '63, two of these classes will be operated on a bilingual basis.

An additional six classes and library are also being erected at the northern end of St. Veronica's school. These will serve as temporary quarters for the St. Stephen's Girls High School under the direction of the Sisters of Charity of Halifax.

As previously announced by the Commission, other temporary measures have been adopted to adequately serve the needs for the school year 1962-1963.

JOUBERT SCHOOL will serve entirely for the French speaking girls both elementary and secondary.

ECOLE ST-LOUIS-MARIE will be occupied by the French speaking boys of secondary school level and by 5 elementary classes. (Grade 1,2,3)

ST. STEPHEN'S HIGH SCHOOL at 185 La Présentation avenue, will accommodate seven classes of the French boys elementary grades (Grades 4, 5, 6, 7)

ELMIDGE GOLF CLUB HOUSE has been rented and will be altered to house the English boys high school classes.

ST. VERONICA'S SCHOOL is already in the process of being enlarged and will be placed at the disposal of both elementary and high school English girls, elementary English boys, as well as the English kindergarten classes.

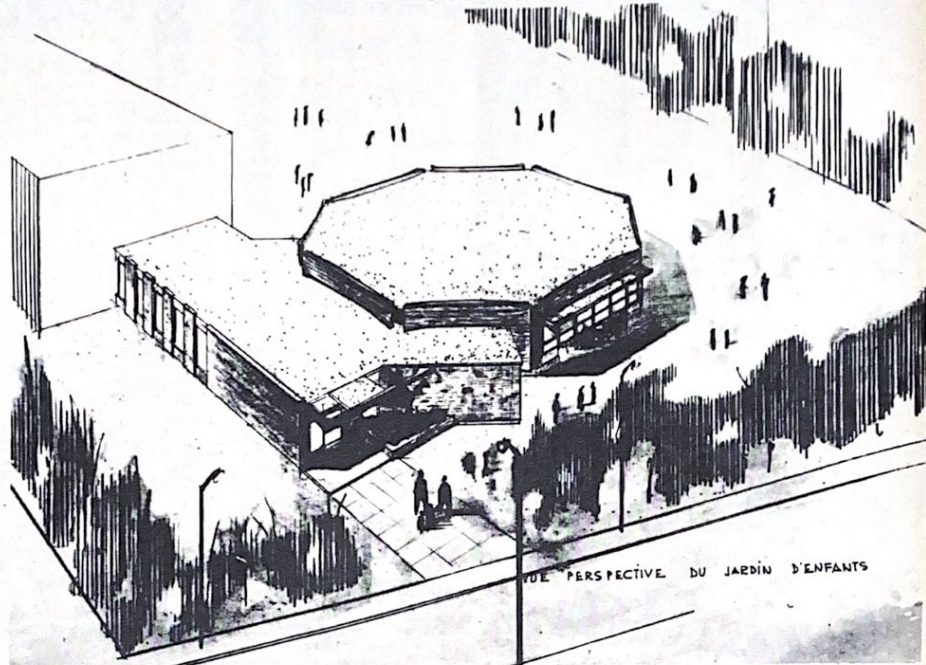

The French kindergarten will continue at 15A Mimosa.

The commission also announces three appointments.

Jean-Marie Tremblay will be guidance counsellor for French language students. Mr. Tremblay possesses a bachelor of education degree and a license in guidance counselling from Laval University. He has been active in psychological and guidance work throughout the province for the last seven years.

Martial Charest, B.A., B. Ped., Lic. Ped., has been named principal of St-Louis-Marie elementary school. Mr. Charest brings to his post 14 years teaching experience acquired mostly in the greater Montreal area.

William Shore, B.A., B. Ed., will direct St. Stephen's Boys High School, replacing the late Russel Whalen. Mr. Shore has been a Montreal teacher and principal for the past 18 years. He is a former president of Federation of English Speaking Catholic Teachers and a director of the Provincial Association of Catholic Teachers.

ZONING

Continued from Page 1 referring to the "unfortunate misunderstanding" following some "bad publicity in the metropolitan newspapers."

Mr. LeBlanc goes on to comment on the misunderstanding and the lessons to be learned.

Mr. LeBlanc also referred to the role of civic employees, with due emphasis on comment made at council meetings by them.

"To rectify this situation I will shortly have completed a manual which will be distributed to all employees listing responsibilities, conduct, etc. It must be pointed out here that even though an employee may be a property owner in Dorval and a taxpayer, he is nevertheless an employee of the City and therefore does not enjoy the same privileges as taxpayers, which do not come under the direct control as employees of the City."

After reading the letter, which was addressed to the Mayor and aldermen, Mayor Pratt commented: "So long as I am Mayor any member of the staff is free to come to Council."

MARRIAGE

The marriage of Mary Morrison (Davis) daughter of the late Mr. and Mrs. Simion Morrison, of Lachine and Dorval, to Harold Clamen, son of Mr. and Mrs. Saul Clamen, of Montreal, took place last month at Shomrim Lobacar Synagogue, Montreal.

Dr. Chiam Denburg officiated.

The bride is a graduate of Queen's University school of fine arts, and Macdonald College school of teachers. The groom is a graduate of Sir George Williams University.

On returning from their honeymoon, Mr. and Mrs. Clamen will live in Dorval.

Mr. and Mrs. E. Seifred and their family, Martin ave., left Dorval recently to take up residence in their new home on Sumac Drive, Beaconsfield.

Congratulations to Mr. and Mrs. Barry J. Roden, Broadway, on the birth of their daughter at the Lachne General Hospital on August 4th.

Belated congratulations to Rev. and Mrs. J. Harwood-Jones, Swallow ave., who celebrated their twenty-fifth wedding anniversary on July 24th. Congratulations also to Mr. and Mrs. J.A. Nutter, Westwood ave., who celebrated their fifteenth anniversary yesterday; to Mr. and Mrs. Romeo Lagace, Cloverdale ave., who will be married 22 years tomorrow; and to Mr. and Mrs. Alan Randal, Claude, who will celebrate their twenty-fifth anniversary on August 13th.

Birthday greetings to Mrs. Wm. M. MacLean, Neptune Blvd., who is celebrating her birthday today; to Mrs. Walter Lambert, Ste. Marie, and to Mrs. J. Jefferies, who both celebrated their birthdays on August 13th. Greetings to David Van Dusen, Malcolm Circle, 10 years old today; to Peter Joyal, Claude Ave., 12 tomorrow; to Doug West, Lakeshore drive, six August 11th; to George Rogerson, Westwood, 13; and to Barbara Palmer, Green Circle, 15, both August 12th; and to David Guter, Ferndale Crescent, seven on August 13th.

Mr. and Mrs. F.P. Reed and their daughter, Barbara, Thorncrest ave., returned home recently from a holiday spent at the Accra Beach Club, Barbados, W.I.

It was with regret that the many friends and neighbours of Mr. and Mrs. F.W. Revell wished them good-bye and good luck when they left their home for the past three years on Green Circle to take up residence in Fort William, Ont. Miss Caroline Barrie of Dahlia ave., left last week to spend two weeks at the Y.W.C.A. Camp Oolawan.

Mr. and Mrs. Robert Steadman are moving from their apartment on Lepage Avenue to 95 Pine Beach Blvd. this week.

Best wishes for a speedy recovery to Miss Diane Traver, Malcolm, who has been ill for the past two weeks.

Mr. and Mrs. William Ant-

liff have returned to their home in Chatham, Ont., after having been the guest of Mr. and Mrs. A.D. Antliff, Lakeshore drive.

Mr. and Mrs. T. Quesnel of Dunedin, Fla., former residents of Cote de Liesse, have been visiting their former neighbours and friends in Dorval during the past week.

Congratulations to Mr. and Mrs. Richard E. Ryan, Handfield Circle, on the recent birth of their son in the Montreal General Hospital.

Mr. E. Haley, Linnet Crescent, returned home this week from a month's business trip to the Maritimes.

Mr. and Mrs. V. Godbeer and their daughter, Margaret, Green Circle, spent several days last week motoring through Algonquin Park and visiting friends in Dundas, Ont.

APPROACHING MARRIAGE

Mr. and Mrs. Richard H. Collister, Neptune Blvd., announce the approaching marriage of their daughter, Margaret Mary Collister, to Mr. Roger Paul Renaud, son of Mrs. Arthur Renaud and the late Mr. Renaud of Verdun. The marriage has been arranged to take place on Saturday, August 18th at 10:00 a.m. at St. John Fisher Church, Valois.

Drive-In Service To Start At 7:30

Rev. A. Ross MacKay, church extension secretary for the Presbytery of Montreal, The Presbyterian Church in Canada, will preach at the Sunday evening drive-in church service to be held at the Dorval Gardens Shopping Centre at 7:30. The choir of the Presbyterian Church of St. Columba-by-the-Lake will attend. Subject of Mr. MacKay's sermon will be "The Service that Counts". The services are held Sunday evenings until the end of August, rain or shine.

SUPPORT OUR ADVERTISERS

Mayor Welcomes Speedy Action Taken By Lesage And Minister

Mayor John Pratt has expressed satisfaction with both the public and official reaction so far to his requests that the Provincial Government take a more positive attitude in encouraging and assisting municipalities to proceed with the immediate planning, financial and construction of sewage disposal plants in all areas badly affected by water pollution.

He was also pleased that Premier Lesage had referred his latest request to the Hon. Paul Earl, Revenue Minister, a long-time foe of water pollution, as stated in the following exchange of correspondence:

The letter from Mayor Pratt to Premier Lesage, states:—
Dear Mr. Lesage,

As you probably know, I have worked for many years to achieve some solution to the problem of water pollution in the Montreal area.

I very much appreciate the fact that your government joined the federal government in offering financial support to municipalities willing to construct sewage disposal plants. Unfortunately, many municipalities are not willing to act of their own accord and are waiting for the provincial government to force them to take action. Some municipalities even feel that if the Province orders them to act, they will be in a position to demand that the Province pay the whole cost, including that share which should rightfully be shouldered by the municipalities themselves. Many municipalities feel that it is not fair to charge sewage disposal plants to their citizens unless neighbouring municipalities act at the same time.

It has become quite obvious that the only solution is for the provincial government to take a strong hand and order all offending municipalities, my own included, to build sewage disposal plants within a reasonable time. I am hopeful that your government will take such a courageous action, even though I am perfectly aware of the many problems you are already facing in other matters.

I was shocked to discover the unenviable position of our Province in failing to take advantage of the present federal assistance to municipalities in this respect. I am enclosing a copy of an article written by myself in this regard, which shows that, per capita, our Province is at the very bottom of the list in facing up to a solution of this disgusting problem.

I realize that the basic reason for this sad showing is the unfortunate lack of information and education so prevalent among our peo-

ple. For this reason I most heartily approve of the efforts that you personally, and some of your immediate assistants, have made to improve educational opportunities for everyone. You have my full support in the stand you have taken in this matter and I congratulate you for it. For some reason which I do not yet fully understand, there appears to be a great conspiracy of silence on the part of many elected representatives in this Province regarding water pollution, and I would personally appreciate very much any comments you might care to make on this matter, and especially any encouragement which you might be able to give to me regarding an early solution.

My best personal regards,
Yours sincerely,
Signed: R. John Pratt,
Mayor of the City of Dorval

following reply:

Mr. Mayor,
The Honourable Jean Lesage has received your letter and he has directed me to refer it to his colleague of the Department of Revenue, the Honourable Paul Earl, who has authority over the Water Purification Board.
Believe me always,
Yours very truly,
Signed: Rene Arthur
Assistant-Executive Secretary
to the Prime Minister

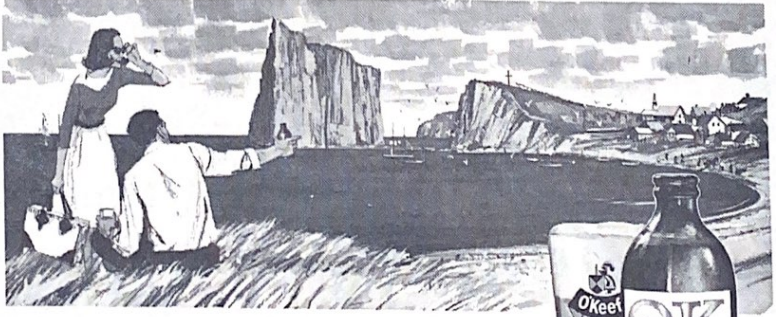

Mayor Pratt felt confident that the mayors of most of the municipalities in this area would be present at the recently announced meeting in Lachine on Sept. 7 to discuss this urgent problem with Mr. Earl and the Honourable Mr. Cliche.

ENJOY QUEBEC'S BEST - ENJOY O'KEEFE
Out on the Gaspé shores, and everywhere in beautiful Quebec, more and more people refresh themselves with mild-tasting O'Keefe Ale.
Why don't you try O'Keefe... It's brewed with seedless hops for natural mildness.
Change to O'Keefe and enjoy life at it's best.
Drink O'Keefe... the Mild ale!

With the events of a thousand mile trip through Ontario and Quebec vivid in my memory, perhaps some of the high spots would interest you.

In the Toronto Star Weekly a week ago, the front page of the picture section showed children feeding the deer at Algonquin Park. Hopefully we started through the park in the late afternoon and were beginning to have our doubts about the story when we caught a glimpse of a deer in the mirror. It scampered off, but a short distance further on we were able to feed several groups of deer apples from our own tree. Their reaction led us to believe that apples are considered a tasty morsel by deer. The other tourists with bread etc., got the brush off! A campers' paradise, this park is certainly far larger than I had ever imagined!

Heading south we travelled through the Muskoka Lake district and found the scenery and the winding roads pleasant fare. We ended our trip in a small town in a valley near Hamilton. A very old town, many of the buildings are well over 100 years old! The traditional homes and churches are in sharp contrast to the modern housing developments, called surveys there.

Dundas is the "Home of Little League Baseball" for 1962 and the streets were lined with welcome signs for the "little leaguers." Final games were being played, under lights in a very modern diamond, with grand stands, dug-outs and all the trimmings! The evening we visited the game was called off due to "curfew" at 9:30 p.m. Isn't that a refreshing touch?

* * *

Here we go packing for camp again! For those who have passed this way, greetings! I am sure by the time everything is labelled I'll be so expert I'll be doing it in my sleep! It is a wise move but why doesn't someone come up with an easy way to label camp clothes!

* * *

During the third week at Camp Tamaracouta a group of scouts was invested as "Knights of Tamara." The son of one of our well known residents, Stainton Cunningham, received a silver bead, denoting 12 years or more of knighthood. During Stainton's stay at camp Mr. and Mrs. W.I. Cunningham together with Mr. and Mrs. W.J. Underwood of Toronto visited the Boy Scout camp. This year marks the 50th anniversary of camping at Tamaracouta and was of special interest to these two gentlemen since they were campers during the first summer 1912. They were invited to sign the visitors book. The return trip brought back many happy memories and was a very proud day for the Cunningham family.

mine what chance there is of an Act of Parliament being passed. How will you do it? What steps will you take?

Ald. Raymond: Is there the same opposition from the public to a bridge, as to a causeway?

The Mayor: I cannot see the exaggerated desire to build a causeway. One purpose was to protect the pipes. With a bridge, that protection has gone. The Central Mortgage and Housing Corporation would not advance money for a causeway and they certainly will not give money for a bridge.

Ald. Milsom: We should find out the cost of a bridge. I suggest we find out the cost within the next 10 days.

Ald. Macdonald said he had never believed it possible for a causeway to be built. He would have voted against it but was absent from that particular meeting.

After further debate among councillors it was agreed unanimously on a motion by Ald. Goodfellow, seconded by Ald. Milsom, to have the matter referred to the City Manager and the chief engineer for report back within 10 days. A meeting is also to be held in committee to discuss further the sewage disposal plant. Commented Mayor Pratt: I can think of no more effective way of delaying construction of the plant.

The meeting generated more heat later during the question and answer period, when Dr. Dickson suggested

that land north of the highway be bought for the plant. It seemed wise, he said, to have an alternate location available.

The Mayor said it was a question of whether or not aldermen wanted to build a plant.

"If they want to they are showing very bad judgement. But if they don't want to build they are showing very good judgement from a political point of view."

James A. Woolven, president of the Bord du Lac Association, said that at a meeting with Ald. Goodfellow following a submission from his association, it was agreed that it would be a good idea to homologue land north of the tracks.

"It is short-sighted to wait without some provision being made," he said.

Ald. Goodfellow denied this, whereupon Mr. Woolven said things heard and said at council meetings were never put in the minutes as a record. "This is wrong," he said. "Except for Ald. Macdonald citizens are not being treated properly by their aldermen."

His remarks met with sustained applause from the audience which was finally quieted by the Mayor.

Ald. Glencross: I asked for copies of the report of the meeting but did not get them.

Mr. Woolven: That goes to show that the city is not being run properly.

It was at this stage that the Mayor became heated. "We find ourselves," he said, "in conflict with the citizens, and

Brown, Red, Grey Lead In Fall Shoe Shades

Variety is the heart of fashion. And this fall Canadian footwear will walk right into your heart in a variety of handsome styles, shapes, colors and leather textures.

A foretaste of fall footwear fashions was provided in New York at a special pre-season show assembled by Shoe Fashion Service of the Leather Industries. What Canadian fashion editors saw was a diversity of pumps, boots, walking shoes, spectators and sling-backs in smooth, fine grained, suede and patent leathers that lift shoes out of the "accessory" class and make them a focal point of the smart woman's costume.

The imaginative changes rung on the needle toe, that classic of Canadian shoe fashions, have created a whole new category of interesting shoes. To accentuate the elongated look associated with the pointed toe, stylists use draped effects, underlays of different leathers and colors as well as trim detail at the toe or throat.

The closed toe pump, always the most feminine of shoes, is even more delicate this year. The use of tucks,

UNIQUE FLAVOR MAKES BREAD HIT OF BUFFET

Many women mix herbs with melted butter to serve along with French bread, warm from the oven. But in this recipe for Herb Bread, the seasonings are added during the baking. A subtle touch of onion flakes, sweet basil and oregano gives the bread an intriguing, quite unique character, without overpowering the flavor.

If you want something special to party the menu at a buffet party serve thin, buttered slices of Herb Bread along with the cold cuts, salads and fruit molds. Lunch box toters will also be delighted with the tasty sandwiches that can be made from this bread. Meat paste, chicken, eggs, cheese or salmon are a few suggested fillings that can be used. And for a breakfast brightener, there's nothing like Herb Bread Toast.

HERB BREAD
Yield -- 1 loaf

- 2/3 cup milk
- 1/4 teaspoon crushed oregano
- 1/2 teaspoon crushed sweet basil
- 1 teaspoon crushed onion flakes
- 1 tablespoon granulated sugar
- 1 teaspoon salt
- 3 tablespoons shortening
- 1/2 cup lukewarm water
- 1 teaspoon granulated sugar
- 1 envelope fast rising active dry yeast
- 2-1/2 cups (about) pre-sifted all-purpose flour

Scald milk, oregano, sweet basil and onion flakes together; stir in the 1 tablespoon sugar, salt and shortening. Cool to lukewarm.

Meantime measure lukewarm water into a large mixing bowl; stir in the 1 teaspoon sugar. Sprinkle with yeast. Let stand 10 minutes, then stir well. Stir in lukewarm milk mixture and 1-1/2 cups of the flour. Beat until smooth and elastic. Work in sufficient additional flour to make a soft dough -- about 1 cup more. Turn out dough onto a floured board or canvas and knead until smooth and elastic. Place in greased bowl. Grease top. Cover. Let

LACHINE SWIM MEET SCHEDULED FOR SAT

The Lachine Inter-Pool Swim Meet will be held at the Dixie Pool this Saturday, August 11. Following the meet the Lachine team will be chosen to enter the Lakeshore swimmer to enter the Lakeshore Swimming Meet to be held on August 25 at Beaconsfield pool. There will be 50 swimming events including freestyle, breast stroke, backstroke and butterfly for various age groups. Four diving events will be for boys and girls over 16 and under 16 years of age.

Dixie Pool officials are hoping for a large turnout of spectators. Entrance will be through the west gate onto the patio and if possible benches will be available to provide seating for about 150 people along the north and south sides of the pool. Spectators may bring deck and lawn chairs into the pool area for this event only. No smoking will be permitted in the pool area.

A silver collection will be taken during the meet to cover

DRA Announces Open Swim Meet Set For Aug. 18

The Dorval Recreation Association will hold a City of Dorval Open Championship Meet on August 18, at Ballantyne Park Pool, commencing at 1:00 p.m. sharp.

This Meet is open to all residents of Dorval whether or not they are members of the Dorval Recreation Association. The program will be posted at Walters, Surrey Gardens, and Ballantyne Pools. Entrants should submit in writing name, age, address and strokes to any of the pools listed above.

A number of dual meets held at the D.R.A. pools this season have aroused keen competition in the swimming field. The City of Dorval Open Championship is expected to attract a large number of swimmers and enthusiastic supporters.

expenses. Competitors and officials will enter through the shower house. Officials are asked to wear a white shirt or pull over and shorts or bathing suit if possible.

Last week it was reported in error that special guest tickets were available for \$2.00. The price should have read \$2.50.

BROTHERS HIT HOLE-IN-ONE FOR RECORD

How's this for a record? Early last month, playing the 11th hole at Dorval Municipal Golf Club, Lawson Sopp, 16, the younger son of Mr. and Mrs. Leslie Sopp, of 88 St. Louis avenue, scored a hole in one with a No. 9 iron.

Only 19 days later Brian, 20, the elder, playing the 17th hole at the Royal Montreal Golf Club, did the same, also with a No. 9 iron.

Two separate "aces in the hole" by the members of one family, all in less than three weeks, seems to be an unique record unequalled in golf.

No doubt Dad will try to make it a triple.

JOHN PRATT

Continued from Page 2
fellow mayors and municipal councillors, and most of all I have called for courageous leadership on the part of our provincial government, which alone holds the only effective power to solve this problem.

We shall await the outcome with interest, and in the meantime we all have other problems.

LETTER TO THE EDITOR

Continued from Page 2

provements for Thorncrest and Westwood ave North. At the regular council meeting of September 30th, 1960, Alderman George C. Goodale gave notice of motion for the preparation of a by-law that would amend by-laws 331 and 338...

I'll mention several others that we have spent much time on that we inherited. The case of our collector sewer has just finished, an infamous case if there ever was one. Three or four councils wrestled with and it cost this council \$50-60,000. to settle. The case of the dismissed employees two councils ago; not to mention our famous police chief case that was inherited. All these are from the past. These are the time-consuming things that this ignorant, uninformed, shilly-shallying council does in committee meetings.

When I spoke before the last election, one of the few promises I made was INDEPENDENT thinking and actions and the majority of the public saw fit to accept this or else I wouldn't be here. I am not apologizing for my action what-so-ever.

I think I can speak for 5 out of 7 of this council in saying we are honestly trying to do a job of work. No one, I repeat, no one has been turned away. As I've pointed out, we have had to settle things that the last three councils have been fighting with. I just hope that 5-10 years from now that the council of the city of Dorval is not trying to unravel things we are doing now. And if we never do anything worse than close a SPECIAL meeting on six people, I'll be quite happy. Our mayor has a crusade with Pollution and Sewage Disposal and is trying to use the council as a whipping boy. With the possible exception of the city of Ottawa, we are probably as far ahead as any upstream community. Whether this is very good or very bad I will not discuss, but this council, with the exception of the mayor, is unanimous in its decisions as far as the approach to the disposal plant has been and I don't think the Reporter is going to GOAD

any of us into running off and suing (even in a friendly manner) or calling a premature referendum at this time on the sewage question, not as long as I have any influence at least.

I don't mind criticism and I know I don't make correct decisions all the time by any means, but to color and distort the picture and news so badly I feel is carrying on too far. Basically, we are at odds over only one item-the speed of the sewage disposal plant. We are spending over a million dollars this year alone on the filtration plant and another million on street construction etc and nobody utters a word.

Are we to be everlastingly condemned because we oppose John Pratt on one item: "THE SPEED" at which we approach ONE problem.

G.J. Glencross,

SHACKLES Continued from Page 6
 drapes and shirred effects at the throat of dress shoes is matched by cut-outs and perforations in walking and casual shoes. Asymmetric straps, tiny buckles and laces running a-

light touch of footwear fashions.

Once exclusively bad weather footwear, the leather boot has come into its own as a fashion shoe this year. Chiefly daytime footwear, with a medium weight leather sole, the boot goes out on the town in high heels and colorful two-tone leathers. Available in every height -- from shoe to knee - the boot is Canada's fastest growing fall style. It's worn in smooth, suede, patent and grained leather around the clock. In the suburbs and country, you're more apt to find it in waxed steerhide and brushed leather.

For daytime, late day and formal wear the sharply pointed toe is fashion's favorite shoe--in supple smooth, pearlized, suede and grain leather. During the day, a number of different crescent toes will also be seen. However, once the sun drops behind the horizon the needle toe--on a straight or windglass heel--is undisputed queen. The closed pump, on a slim flexible leather sole, is at home on the dance floor, at the theatre or in your own living room.

Slip-ons and ties are equally popular in walking shoes this year, with both interpreted in smooth, brushed and grain leathers. Perforations, pinking and stitch detailing add low-key tailored effects to a smart, comfortable shoe. A leather sole cropped close to the tapered silhouette of the shoe offers a fashionable base. round the shoe top all add to the feminine mood. Soft suede leather, highly polished smooth leather and finely grained leather all contribute to the
