NOTE-1: the FastTrack differential paid per month will be billed separately via CDA's Square.com account. Your regular group-level monthly fees will continue to be charged and paid monthly via your original SportsEngine registration.

NOTE-2: You may only cancel your FastTrack program at the END of any cycle.

NOTE-3: Since each team level has minimum skill requirements, the concept and purpose behind FastTrack is to allow divers wanting to improve more quickly to participate (typically short term) in additional training sessions/hours per week (both dryland and water).

Note-4: You must be approved by a CDA coach to participate in the FastTrack program.
