

## Kirk Ireton Open Event Neighbourhood Plan 26<sup>th</sup> Jan 2019

Person\_1

Very well presented plan, a lot of work behind the scenes.

Person\_2

Very interesting exhibition both with minor proposed alterations. The main ones relate to encouraging business 'at home' which are good. The village is encouraging retention of village envelope within developed area with minor alterations. Very good effort.

Person\_3

Very well done plans of the village. May it stay as it is.

Person\_4

Excellent work, quite an achievement!

Person\_5

An amazing amount of work, thanks to you all involved. Hopefully the 'powers that be' will take note!

Person\_6

It has been a long haul but due to the diligence of Nick in particular and Maurice also Jan and earlier John I feel that we are almost there. Well done all of us.

Persons\_7

Thank you

Person\_8

Clean presentation

Person\_9

It looks like a job well done. The plan is a really good representation of what was originally intended. A great job by everyone involved.

Person\_10

Excellent work – very important to mention the character and views into, within and from the existing development line.

Persons\_11

Very pleased with the production of the plan: well done to everyone involved. The fields indicated as low sensitivity ought to be included within the proposed settlement boundary as recommended by the County Council. We strongly feel that the protected views ought to be retained to maintain the atmosphere and 'rurality' of the village.

Nos 5,6 + 16 require amendment as they are incorrect.

We would oppose any development to fields either side of Town End as this would be detrimental to the rural nature of this end of the village.

Persons\_12

A very well produced and prepared plan. It appears well thought through and to reflect what is important to preserve the character of the village whilst recognising that some development is also required equally to ensure that the village continues to grow and thrive. We feel that any development within the village should consider affordability and also suitability for families and for older people so that people local to the area are able to continue to live in and around the village, but also that people able to move in. We would also support the conversion of existing buildings preferably to support local business and agriculture. Job well done! Thank you

Persons\_13

A very well prepared well thought out and professional plan representing a huge amount of work by those involved.

Person\_14

Thank you all for all of your hard work. The plan is well thought through, appropriate and just what the village needs to help with future development and to use to respond to any planning applications. Well done to all of you.

Person\_15

Very well put together plan – an awful lot of work by the team – Well done.
