

Express Facial

Microdermabrasion

Enjoy all the benefits of the Express Facial, with the added enjoyment of an extra deep exfoliation, allowing for the masks and moisture to penetrate to the deepest epidermal level. Skin feels extra smooth. You will look flawless the next day. Especially beneficial for acne prone skin and to reduce pore size. \$55

Chemical Peel

The quickest yet most effective of our treatments. Gentle enough to look flawless the next day. We offer two types of peel: One for anti aging and sunspots. Or one for acne prone skin. Most people do not peel on a surface level. The cellular level is activated and repaired. Your skin will be glowing like never before with no downtime. \$55
