

## **Ed Hughes**

Facility Manager/Farm Educator

Ed Hughes lives on the farm and has been an instrumental part of the startup and growth of HCFC. He is the unsung hero who works tirelessly behind the scenes to upgrade and maintain our facility and farm equipment.

When not at his full-time job at Messick's Farm Equipment, he can be found in the shop tinkering with various woodworking projects. His specialties consist of wood-

turning, end-grain cutting boards and furniture. His handy work can be seen throughout the camp facility. He is known as the "wood nerd" by those who love him, particularly his wife, Cindi and his children, Victoria and Chandler.

Ed is in charge of the children's woodworking area called the Mouse's Nook which provides a space for our campers to learn building skills and create handcrafted projects. Ed looks forward to "passing on the craft of woodworking" to the next generation of woodworkers this summer on Wednesdays!
