species have been documented in the checklist area:

Piping Plover Mountain Plover

18 August 1987 24 March-1 April 1987 12-14 June 1987

This checklist covers El Paso County, Texas, plus approximately the western one-half of Hudspeth County, Texas (west of longitude 105º 30') and the southern one-third of Doña Ana County, New Mexico (south of latitude 32° 10'). It includes 374 species of birds and 10 additional identifiable forms documented as occurring in the area. Another 28 species are carried on the Historical (11), Exotics (7) and Hypothetical (10) lists below. Species names and taxonomic organization follow the American Ornithologists' Union Checklist of North American Birds (6th ed., 1983) as currently supplemented.

This list is our best effort to describe the current seasonal status of birds in the El Paso County area but is not the last word on the subject. A checklist evolves as field observers contribute new information to fill gaps in our knowledge or as changes in environmental conditions cause changes in the status of some species. You can contribute to future improvement of the list by reporting any new or unusual sightings to the El Paso/Trans-Pecos Audubon Society, P.O. Box 9655, El Paso, Texas 79986.

HISTORICAL

This checklist is based mainly on records acquired since 1976. Thus it gives current, not historical, status. Species documented as occurring in the El Paso area prior to 1976, but which have not been recorded since that year, include (date of last record in parentheses):

Pacific Loon (1966) Wood Stork (1937) Fulvous Whistling-Duck (1940) Swallow-tailed Kite (1951) King Rail (1933) Hudsonian Godwit (1918)

Northern Pygmy-Owl (1918) Carolina Wren (1958) Varied Thrush (1956) Sprague's Pipit (1958) Golden-crowned Sparrow (1974)

EXOTICS

Species reported in recent years from the El Paso area, but which are believed to be either escaped or deliberately released exotic birds, include:

Chukar Ring-necked Pheasant Northern Bobwhite Ringed Turtle-Dove

Green Jav Purplish-backed Jay Black-billed Magpie

HYPOTHETICAL

Species reported from the El Paso area but not yet documented

Black-shouldered Kite Ferruginous Pygmy-Owl FIf Owl Allen's Hummingbird

Downy Woodpecker Eastern Wood-Pewee Yellow-bellied Flycatcher Gray Vireo American Tree Sparrow

Printing courtesy of

Green Kingfisher

Birds of El Paso County, Texas and Adjacent Areas

7th Edition, October 1987

— UNCOMMON: should see on 1 out of 4 trips in proper habitat.

--- RARE: should see on 1 out of 10 trips or less in proper habitat.

•• •• CASUAL: not expected annually; also includes out-of-season occurrences. Each dot represents an individual record, except where space limitations prevent it or where an extended period of casual status is shown by a string of uniformly spaced dots.

- ACCIDENTAL: 4 records or less.
- · · · indicates a record of lingering vagrant individual or flock.
 - i Irregular; absent in some years, but may be numerous others
 - * Confirmed breeding
 - + Suspected breeding
 - L Localized breeder; breeds in only a limited number of favored areas
 - Ly Localized year-round

NOTE: Solid lines (———) between species names separate avian families; dashed lines (———) separate subfamilies.

Compilers: Jeff Donaldson John A. Sproul, Jr. Bettie Roberts Barry R. Zimmer
