WEEKLY E-LETTER, MAY 9, 2024

MAY SERVICES AT ONE ISLAND FAMILY:

12 Rev. Bob Murphy: Mothers' Day

The discussion about women and organized religion continues. In honor of Mothers Day, we'll look at three women - all of them mothers - who helped to establish Judaism and Christianity. All three are often overlooked or underappreciated. Afterwards, we'll look at two women who deserve more credit among the Unitarian Universalists. All of the stories raise questions about organized religion in the 21st century.

19 Rev. Doug Slagle: will surprise us!

26 Memorial Day: picnic onsite - bring something to share and your stories, travel plans, summer ideas, etc.!

We welcome our **UUA AFFILIATE MINISTERS** on a regular basis:

Rev. Bob Murphy and Rev. Doug Slagle

UNITARIAN UNIVERSALIST

EQUALITY FLORIDA IS PARTICIPATING IN THE KEY WEST PRIDE CELEBRATION.

The Equality Florida, Key West Representative was one of our OIF members while she was here in Key West and organized these events in the past. Our members have volunteered with Equality Florida in the past. We are trying to extend our support of Equality Florida as Equality Florida promotes many of the same ideals we have as Unitarian Universalist.

From Equality Florida: We're so excited to be celebrating **Key West Pride** with our beautiful community this year! We have an immense opportunity to change the tide in our Sunshine State - and engaging folks at Key West Pride is a critical way for us to build our grassroots community in the Keys so we can help make that change a reality. Join us as we collect Pledges to Vote for Equality, recruit new volunteers, and March in the parade! Take a look at the details and sign up at the link below!

KEY WEST CLIMATE ADAPTION PLAN

The City of Key West is developing a Climate Adaptation Plan to assess threats due to climate change, such as sea level rise, storm surge, extreme flooding events, heat, etc. and to develop an Adaptation Plan for the community.

CITY OF KEY WEST FLORIDA

CLIMATE ADAPTATION PLAN

The City has already begun evaluating future climate change impacts on important assets within City limits. The project will culminate in a community prioritized 10-year Adaptation Plan that identify projects, budgets and grants necessary to prepare the City and its residents for future climate hazards.

The Climate Adaptation Plan will include public outreach meetings and community engagement throughout the project. These meetings will help with data collection, flood mapping and modeling, critical asset evaluation, and suggested City policy updates.

The City's consultant, Tetra Tech, is leading a team of experts supporting all aspects of the assessment and plan. The project's outcome will be a Climate Adaptation Plan that will make the City of Key West eligible for infrastructure grants including through the Resilient Florida Grant Program, of which there was over \$1.5 billion in grants in the past three years.
