**MABAS Division 102 DISPATCH**  
**INTERDIVISIONAL REQUEST INFORMATION**

Use this SOG if you receive a request for a strike team from another MABAS Division.

Dispatcher obtains the following information:

MABAS Division#: \_\_\_\_\_

Requesting a: \_\_\_\_\_

- **Strike Team (Multiple units, often five in number, of the same resource category that have an assigned strike team leader.)**
- **Task Force (Any combination of single resources, but typically two to five, assembled to meet a specific tactical need.)**

Fire Department making the request: \_\_\_\_\_

Staging at: \_\_\_\_\_

Time requested to report by: \_\_\_\_\_

Operational Period: \_\_\_\_\_

## MABAS Division 102

The type of card will fall into one of 10 categories. The final number of the card indicates the category:

### **Incident Categories**

- 0 = Tender
- 1 = Structure Fire / Hydranted
- 2 = Structure Fire / Non-hydranted
- 3 = Life Safety, EMS, Large Area Search, RTF, etc.
- 4 = Brush Fire
- 5 = Water/Ice Related
- 6 = Hazmat
- 7 = Technical Rescue
- 8 = Target Hazard
- 9 = Disaster

*The following are **examples** of typical box card numbers using this numbering system:*

- Kansasville Fire Department has two different fire box areas and their fire box number 1 has hydrants, therefore the card number would be 500-01. If that same fire box had no hydrants, then the box number would be 500-02.
- Union Grove Yorkville Fire Department has two technical rescue box card; one is for rope rescue and one is for confined space rescue. The technical rescue box card for ropes would be 300-07 and the technical rescue box card for confined space would be 300-17.
- Raymond Fire Department has three different Life Safety incidents; EMS would be 400-03, Large Area Search would be 400-13 and RTF would be 400-23.
