# 2025 YEARLING ANGUS BULL SALE

---

## Term Explanation ( All EPD information is from the American Angus Association)

**CED** - Calving Ease Direct - Expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

**BW** - Birth Weight EPD predicts the difference in average birth weight of a bull's calves compared to calves of another bull. Reported in pounds, a lower number is desirable.

**WW** - Weaning Weight EPD predicts the difference in average 205-day weight of a bull's progeny compared to calves of another bull. Reported in pounds, a higher number is desirable.

**YW** - Yearling Weight EPD predicts the difference in average 365-day weight of a bull's progeny compared to progeny of another bull. Reported in pounds, a higher number is generally desirable.

**SC** - Scrotal Circumference - The SC EPD predicts the difference in yearling scrotal circumference of a bull's male progeny compared to progeny of another bull. Reported in centimeters, a larger number is desirable.

**HD 50K - ALL BULLS IN THIS SALE HAVE BEEN ZOETIS HD 50K TESTED!** This new HD 50K for Angus provides MVPs on 16 traits using more than 50,000 DNA markers, providing the most reliable genomic predictions today.

**IMF** - Percent Intramuscular Fat EPD reflects differences in transmitting ability between animals for intramuscular fat.

**REA (Rib Eye Area)** - The adjusted Rib Eye Area of a bull's progeny. The EPD is expressed in square inches.\*

**RADG - Residual Average Daily Gain** - Expressed in pounds per day; is a predictor of a sire's genetic ability for post weaning gain in future progeny compared to that of other sires, given a constant amount of feed consumed.

**\$W - Weaned Calf Value** - An index value expressed in dollars per head; is the expected average difference in future progeny performances for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk and mature cow size.

**\$F - Feedlot Value** - An index value expressed in dollars per head; is the expected average difference in future progeny performance for post weaning merit compared to progeny of other sires.

**\$G - Grid Value** - An index value expressed in dollars per head; is the expected average difference in future progeny performance for carcass grid merit. Compared to progeny of other sires.

**\$B - Beef Value** - An index value expressed in dollars per head; is the expected average difference in future progeny performance for post weaning and carcass value compared to progeny of other sires.

**\$C - Combined Value** - An index expressed in dollars per head, which includes all traits that make up both maternal weaned calf value and beef value.

**The Bulls we are offering are free of all known genetic defects as monitored by the American Angus Association.**

## SALE FORMAT

---

- Bulls can be kept free at the ranch until May 1st. After May 1st there will a charge of \$5.00 per head per day.
- Pay when you pick up your bulls.
- Registration papers available upon request.
- All bulls will be semen tested.
- Lunch will be served at 12:00 PM.
- DVAUCTION

Bull Insurance will be available the day of the sale. Wilkinson Ranch will pay 1/2 of your premium of your insurance purchased that day.

Bulls are guaranteed semen tested so if your veterinarian does not pass said bull(s), they cannot be returned /brought back for replacement/refund. If you need your bull retested we would gladly make arrangements with a veterinarian of our choice.

Bull(s) can not be returned to Wilkinson Ranch. You need to purchase the insurance to cover for injury/ your personal semen test/etc.

## - WELCOME -

Welcome to Wilkinson Ranch's Bull Sale. Wilkinson Ranch is a family owned and operated ranch . We know it is important to our customers that the bulls you are selecting are born and raised on our ranch.

To Be a cattleman, you have to be tough and welcome a day of hard work. To be a Successful cattleman.... You also have to be smart. That starts with choosing the RIGHT Bulls and Heifers. Our bulls have Marbling and Muscle that will make you money, by expanding your market possibilities. What kind of beef do you want to eat?

The ranch consists of the Mother, Mary, Sons Dan and Mark and families. Our daughter, Vicki, who helps with the bull books and A.I. ing. Family is an important part of our operation and is a big part of our success. We have a strong work ethic, which motivates us to set goals for our operation and industry for the next generation.

We select our bulls from over 600 dams. We have 50+ Pathfinder cows every year. Our cattle are bred for quality and genetic makeup, which results in the mother's having great longevity in the herd and can function in a real world of grazing grass and cornstalks. Their offspring will add real value in what the market demands. We take great pride in the maternal and carcass values we have developed on our cow herd.

We A.I. about 200+ heifers and 300+ cows every year selecting A.I. sires with our customers and beef industry in mind. With the wide use of Artificial Inseminations, DNA and 50K Testing, we are in the information age of the cattle business. You have more tools than ever to help you in making your genetic selection. Combining these tools with the cowman's eye can take you to the future, while adding new markets with an emphasis on marbling and muscle, an attribute that some Angus and other breeds don't have.

We think by continually adding more values to our bulls, the cattle industry, as a whole will be better by making people's eating experience a great one each and every time they consume our products.

Thank you for your interest and please feel free to call with any questions.

**OUR GOAL: TO BUILD LASTING RELATIONSHIPS WITH CATTLEMEN ONE AT A TIME.**
