

Kennel-Free Boarding

Our kennel-free boarding is designed to give your pet the experience of being at home instead of cooped up in a kennel or cage. Due to housing only one client at a time your pet has the same one on one attention they would receive in their own home. They will experience love, affection, stimulating games and all the care we give our very own pets.

Having complete access to the inside and outside of our home, you or your pet can choose where they wish to sleep, play or just hang out. Whether your dog is a sleepy couch potato or the outdoors type that likes to run and play, he/she will get the loving environment that meets their individual needs.

We ask that you bring your pets own food and treats, however we supply all types of beds, blankets, toys and as always, a fresh water supply.
