

EXECUTIVE POWER - BY THE HOUR

Need a CEO, CFO or COO for a short or intermediate term engagement? Want to strengthen your Board of Directors or have mentoring support for new management team members? Are you a Private Equity firm or lender looking for due diligence or business assessment, or to have someone represent you on a Board?

FarStar's team of former C-level executives can place decades of experience at your disposal.

Our senior consulting team has over 150 years of combined experience spanning a wide range of manufacturing industries including aerospace, defense, electronics, and industrial products. Other industries include distribution, services and biotechnology. The operating modes cover process, batch and discrete in MTS, ATO, MTO and ETO environments. We have real life experience with family-controlled businesses as well. Both Stephens are members in good standing of the Institute of Corporate Directors (www.icd.ca).

Skills cover multinational, international, multi-site organizations with need for senior management oversight, private and public company board participation including committees, strategy, operations and supply chain improvement, financial management and accounting expertise.

In other words, if you are a manufacturing or distribution company, we have you covered.
