Living Probiotic Drinks

Dear Store Manager,

We are excited that one of your loyal customers would like you to consider carrying Valens® Living Probiotic Drinks. We offer both our award-winning Kombucha and our new innovative **Water Kefir!**

Thank you...and we look forward to doing business with you!

*Additional Comments:* \_\_\_\_\_

Valens® Living Probiotic Drinks are proprietary blends of our naturally cultured kombucha tea or our innovative NEW water kefir. We then add a splash of organic stevia leaf flavor infusions, creating light, easy-to-drink probiotic drinks that are also low-calorie! Valens' unique, broadly appealing, smoother profile contains NO artificial carbonation or added vinegar...because we always like to **keep it real!**

Valens® Living Probiotic Drinks are bottled in 16oz BPA-free, premium plastic bottles, packed 12 per case; refrigeration recommended; 6-month refrigerated shelf-life.
