

Having considered the reliable information available at this time and in response to the Bishops request for caution, I have decided, in accordance with Constitutional authority granted the Office of the Pastor, to suspend public worship through March 28th. On that day, Council and I will reconvene to consider what is next to protect and serve our congregation and community. Please watch your email for updates and/or changes as new, reliable information becomes available for consideration. And please advise your faith family and friends who do not have a computer for internet access. Be safe out there.

Thank you and God Bless.

Pastor Burkhart
