Usui System of Natural Healing, "Reiki for all people". The day will include the history of Reiki, Reiki I Initiations, Hands-on Practice and Certification. Join Reiki Master Teachers Aurelia and with AI assisting for the receiving of this profound spiritual hands-on radiant healing method as originally shared by Dr. Usui. This affordable class will enable you to effectively help all living things in their unique healing process. Upon completion, each student will receive a folder of pertinent information along with a certificate enabling them to freely practice on others.

Reiki in Japanese means Universal Life Force and every person alive has this life force breathing through them. Reiki initiations simply activate that life force in individuals to awaken the remembrance of divinity within. The class is experiential, activating intuition.

Aurelia has been practicing Reiki since 1984 after hearing the word and "knowing" it was something she wanted to do even if she didn't understand what it was. Since that first initiation, Aurelia has studied many healing modalities and is eager for others to own their own innate healing abilities. She resigned her national child care organization position and child care responsibilities in 1993 to devote her time fully to the unfolding of her own human and divine potential and in service to the light within.

We hope you will feel the call of Reiki and self healing if you currently do not have a spiritual practice! Pre-registration is required to receive certificate and informational packet. Scholarships available. Pre-registration is necessary to receive your materials. Bring a sack lunch to stay in the energies.

Class will include an afternoon break. Reiki students may attend freely for update. For more information and to commit to the class, please contact: AureliaTara@aol.com, www.AureliaTara.com 303.771.5622
