

POST-PREGNANCY...

SILVER WAVE ABDOMINAL BAND

The moderate compression in this soft elastic abdominal band hugs and shapes hips and abdomen and is also an excellent lower back support. The patented three-dimensional wave fabric actively micro-massages the skin, stimulates microcirculation and detoxifies the skin. Fabric is light and breathable, fits like a second skin for all-day wearing comfort and is invisible under clothing. Its real silver ions in the fibre inhibit odour and bacteria and maintain a natural skin balance.

SILVER WAVE HIGH WAIST SHORT

High-waist short with medium-strong compression to enhance the figure with a slendering and modelling effect on the silhouette, comfortably wrapping around the back to provide support, while maintaining correct and comfortable wearability. The special patented fabric with three-dimensional waves activates microcirculation and helps eliminate excess liquids, thermally regulates body temperature and provides, with the natural daily movements, an effective massage. The special bacteriostatic silver ion yarn controls bacteria proliferation, prevents bad odours and allows natural transpiration of the skin. Hygienic cotton gusset and flat seam.

"Reports show that 30% of pregnant women will develop varicose veins during their 1st pregnancy and 55% during their 2nd and following pregnancies."

HOW TO DETERMINE THE PROPER SIZE
preventive • maternity • cellulite control

MAMAN SERIES:

Solidea Maternity garments are designed to accommodate an average pregnancy weight gain of approximately 35 lbs (15 kg). To choose the proper size, we recommend that you calculate the **average height and weight** that you normally are **outside of pregnancy**. If you have gained a higher than average amount of weight during your pregnancy (ie. beyond approx. 35 lbs), we recommend that you choose the next size up.

SILVER WAVE AND MARILYN SERIES:

To choose the proper size for Silver Wave post-pregnancy and Marilyn Thigh High garments, we recommend that you calculate your **actual height and weight** at the time of fitting. For the Silver Wave Abdominal Band, choose the size by measuring the circumference at the narrowest point of the waist.

HEIGHT CM	WEIGHT KG										HEIGHT IN	
	45	50	55	60	65	70	75	80	85	105
