

## **AGD SYSTEMS To Operate A-4 Skyhawks For USG Tactical Training**

**Press Release** • February 18, 2018 14:00 EDT

Ft. Lauderdale, Florida February 18, 2018 (Newswire) - AGD SYSTEMS announces that it will provide and operate A-4 Skyhawk fighter-attack aircraft for training programs supporting U.S. Forces and approved NATO allies. The A-4 aircraft will be used to help ground forces train in Forward Air Control "FAC" training missions at designated military ranges. Additionally, the A-4 aircraft will support flight training missions acting in an "aggressor" role in simulated combat as was previously utilized at the U.S. Navy's "TopGun" Fighter Weapons School. Mark Daniels, CEO of AGD SYSTEMS was quoted saying, "The A-4 Skyhawk is a very capable fighter and has proven its longevity for decades. It is still a formidable adversary that can be very useful in training against more advanced fighter aircraft. By using the A-4 as the bandit aircraft in tactical training exercises, we are helping save the government money and valuable flight time on more expensive aircraft such as the F-16, F-18 and the F-35. We are pleased to expand our efforts in tactical training", said Daniels.

### **About AGD SYSTEMS CORPORATION**

AGD SYSTEMS CORPORATION ([www.agdsystems.com](http://www.agdsystems.com)) is an emerging international company that focuses its business case in the transportation sector providing services to government and commercial industry. AGD Systems recently acquired AeroGroup Incorporated ([www.aerogroupinc.com](http://www.aerogroupinc.com)). AeroGroup has been supporting military pilot training, research and development programs since 1999. AeroGroup was the first civilian commercial company to perform F-16 training programs in the Continental United States for the Dutch Air Force and OCONUS F-16MLU training for the Belgian Air Component. AGD Systems provides assets for military operations under government contracts, including; sales, services, training, maintenance, parts, subject matter experts, consultants, logistics, technology design, testing, development, and research.

**AGD SYSTEMS CORP is a U.S. Based Defense Contractor.**
