

Aluminum Blinds

Features

- > Premium and Essential style blinds available to accommodate customer needs and budgets
- > Spring-tempered slats – resist kinks and dents, they bounce back
- > Dust resistant finish repels dust and makes cleaning easier
- > Lockseam bottomrail provides added durability and resists bowing
- > Break-Thru Safety Tassel helps protect children and pets
- > Limited Lifetime warranty ensures your customers' satisfaction

1" Premium Blinds

- > Spring-tempered .008 gauge slats – available in a full selection of decorative colors and styles
- > Heavy-duty headrail with built-in valance – adds contemporary appeal
- > LightsOut room-darkening feature – standard on every blind – blocks out unwanted light and increases privacy
- > 18mm ladder spacing – provides maximum slat overlap to ensure a tight closure
- > Crash-proof cordlock and cast metal slip-clutch tilter – provide smooth, reliable operation

1" Essentials Blinds

- > Spring-tempered .006 gauge slats – offered in best-selling styles and colors
- > Limited selection of .008 gauge slat colors also available as an upgrade
- > Heavy-duty standard headrail with crash-proof cordlock and cast metal slip-clutch tilter – ensure smooth, reliable operation
- > Two-slat channel valance – covers the headrail and brackets and adds a finished look

Hardware and Installation

- > Snap-in mounting brackets – standard on Deluxe blinds, mount above the headrail and are hidden from view
- > Box mounting brackets – color-coordinated, hinge-front brackets, standard on traditional blinds, that are easy to install
- > Spacer blocks, extension brackets, and hold down brackets – available for installation flexibility

Easy Care and Maintenance

REGULAR CLEANING

- > Dust with a feather-like duster
- > Vacuum gently with a low-suction hand-held vacuum
- > Wipe clean with warm water and a mild detergent
