Dilated Retinal Exam

As part of a comprehensive eye exam, dilation is highly recommended. Drops are instilled so the doctor may see more peripherally in the back part of the eye. **It is especially recommended on your first eye exam, if you have diabetes, high blood pressure, previous retinal issues, flashes/floaters, or a high nearsighted prescription**. This procedure does take an **additional 30 minutes** and will blur your near vision for 4-6 hours. Some people do not feel comfortable driving after dilation due to light sensitivity and some slight distance blur. ***The dilation is not included in some insurances or the basic wellness exam. There is a $30 additional fee.*** The Doctor may require you to dilate your eyes based on findings during the exam to get an accurate health diagnosis.

❑**I would like to DILATE my eyes today** ❑ **I would NOT like to Dilate my eyes today** ❑ **I will reschedule Dilation**
