K. D. Boyd	Florida Tel Company	Ocala, Florida
H. Leonard Martin	Fla. Keys Elec. Coop. Assn. Inc.	Tavernier, Florida

OLD BUSINESS

The minutes of the meeting held in Daytona Beach, Florida, November 11th 1953 were read and approved.

INTENT TO CONSTRUCT

The notices of intent to construct, which were received by the Secretary since the last meeting were read in short form, and it was noted that replies were being received on a better percentage than previous, not so many "no replys" marked up in the "Approved column" of the last report.

NEW BUSINESS

Since last meeting the State Road Department has agreed to show the location of coaxial cable on field maps, and it was suggested that the State Road District offices be furnished with the locations of the cable, for various utility reference.

Mr. Burke of <sup>A-T & T Co.</sup> Southern Bell Tel & Tel Company is now in charge of cable maintenance and is in position to give location of Coaxial Cable where this information is requested.

It was also suggested that any new proposed high voltage transmission lines and locations be brought before the committee, for coordination purposes, as to the possible interference to telephone lines adjacent, and within quarter to half mile of existing lines.

Mr. Zelenka arranged for the showing of the films made during the laying of the cables from Key West to Havana. The films showed each phase of the operation and were educational and certainly were enjoyed by all.

ARRANGEMENTS FOR NEXT MEETING

The next meeting will be held at the invitation of Mr. R. A. Mayhew, Southeastern Telephone Company, Tallahassee, Florida, May 14, 1954, and a good attendance is expected by Mr. Mayhew, so let's not let him down.

There being no further business the meeting was adjourned.

Leonard Martin  
Secretary
