

Charity Blackjack Tournament

Join us Saturday March 4, 2017 at Sunset Station

funds benefit High School Leadership

High School Leadership was created to help students learn more about themselves and how they can become a leader in their school and community. It is designed to facilitate students' understanding of group dynamics, communication, and personal integrity within the context of leadership. During the weekend-long retreat, free of charge to participants, students will attend fun and interactive workshops designed to create an environment for individuals to explore their personal style of leadership, share experiences and discuss the meaning of leadership.
