Quotes:

“ I can't think of another person more deserving who places others before himself in every future endeavor he has which is not common at his age. Not only has he changed his career goal from one behind the scenes but it is also one the will enrich the lives of others. This is a clear separation from others not just in consideration for this scholarship but among his peers in general.” **Dawn Miller** - School Board Trustee/Educator

“Thank you for....your continued support and involvement in my college career these years. When I received the email congratulating me, I was ecstatic. I could barely contain my emotions. I immediately reflected back to the first conversation my parents had with me about the Navy family and how every sailor looks out for each other and their family no matter where they may be located..The Anchor Scholarship allows me the ability to afford needs that would otherwise be difficult to obtain.” **Thaddaeus**
