Community COVID-19 Testing Event Planned for August 13 in Linton

[LINTON, ND] – Emmons County Public Health is hosting a community surveillance COVID-19 testing event on August 13 by their office. The event will be conducted from 10 to 11:30 a.m., or until testing supplies are exhausted, at 118 E Spruce Avenue in Linton. All testing events are subject to change.

Pre-registration for this event is available at <https://testreg.nd.gov/>. This process is not required to be completed in order to receive a test, but is recommended to speed up your overall testing event experience. Please complete the entire questionnaire. Pre-registration does not guarantee test availability.

On the day of the event, individuals tested are asked to come to the ECPH building and remain in their vehicles. Nursing staff will conduct tests on those individuals in their vehicles.

For ongoing response efforts to the COVID-19 pandemic, the North Dakota Department of Health has provided a COVID-19 Hotline to help answer questions. You may call 1-866-207-2880, Monday through Saturday from 8 a.m. to 5 p.m. Individuals seeking medical advice should contact their healthcare provider.

Emmons County Public Health has provided a variety of COVID-19 information through its Facebook page. You can connect with them at www.facebook.com/ecph.gov for updates about testing events. For more info about COVID-19, visit the [ND Department of Health website](#), [NDResponse.gov](#), or [CDC website](#).
