

Quotes From FLISC Clinic Parents:

Levi did well this summer on a U6 team. He had 7 goals so far and last game the other coach said he was the best dribbler he has seen so far. Although he isn't the fastest or strongest yet, he shielded the ball really well just like you taught him.

Eric Marsh

My son played in the Honeoye Falls rec league. He was definitely a stand out in the game portions.... the shielding and dribbling especially. A much more comfortable disposition when possessing the ball.

Shawn M.

My boys, Anson and Lincoln, played in the Livonia rec program this summer. Both boys exhibited good improvement with eyes up dribbling and passing. They are also becoming much more aware of spacing and moving without the ball. They also have improved on touching the ball with instep and laces as opposed to the toe. I'm pleased with their progress thus far.

Bill Richardson

Edie & Georgia enjoyed the soccer clinic very much, and always looked forward to each session. That in itself was very unusual for them. They also used the techniques taught in the clinic during the Summer League games very effectively, which few of the other players knew or used.
